

MURDERERS ON JUNKET

Canada Objects to Outing

Ohio Governor's Employment of Convicts as Servants Raises Protest

Insists Second Degree Men Killed Accidentally; 600 in "Honor" Camp

(EXCLUSIVE DISPATCH)
OTTAWA, Aug. 1.—"If we get evidence that there are two United States convicts in Canada, we will certainly go after them, for they are illegally in the country, but so far we have had no evidence as to their presence or exact whereabouts," said the Secretary of the Immigration Department today relative to the Columbus report that the Governor of Ohio has come to an Ontario summer camp with two convicts.

"If the Governor of Ohio has brought in convicts on his staff it is distinctly against the law, though it is doubted if their identity was revealed. The department will send an inspector after the party if it learns of their whereabouts, information so far is very meagre."

"ALL BUNK!"
(EXCLUSIVE DISPATCH)
COLUMBUS, Ohio, Aug. 1.—"This is all political bunk," said Gov. Denney of Ohio when interviewed today concerning two convicted murderers in his party while on a fishing trip to Cobocook. "This news was published to hurt me. I have a signed pardon in my desk at Columbus for Earl Jennings, one of the murderers, and C. Z. Z. is employed as a cook."

Gov. Denney's party included a fishing trip to Cobocook. "This news was published to hurt me. I have a signed pardon in my desk at Columbus for Earl Jennings, one of the murderers, and C. Z. Z. is employed as a cook."

"Did you have any trouble getting across the border?" he was asked.

"No, not a bit," he replied. "I had a passport from the Hon. Mr. Drury, Premier of Ontario, and we are here on the minister's invitation."

Blaming the system of penal servitude for the condition of many criminals, the Governor continued: "Our system in the penitentiaries is to reform men, not to punish them. I have 600 men on my honor and I have 600 men in tents with no guard. I have also two other men."

Yes, Zita Must Not Hock Large Gem She Learns

(BY CABLE AND ASSOCIATED PRESS)
ROME, Aug. 1.—The Italian government has warned former Empress Zita of Austria, that if she sells the famous Florentine diamond, as she threatens to do in view of the financial difficulties in which she finds herself, it will be considered a breach of the conditions of her exile.

The gem, which weighs 113 carats, was claimed from the Hapsburgs by Italy under the Versailles Treaty. The late Emperor Charles and his wife took it with them when they fled from Austria, and while in Switzerland the diamond was pawned.

WORLD WAITS STATEMENT OF BRITAIN ON GERMANY

Speech in Parliament Today Will Give British Attitude; French See Poincare Victory

(BY VINCENT SHEKMAN)
(BY CABLE—EXCLUSIVE DISPATCH)
PARIS, Aug. 1.—On the eve of the British government's statement in Parliament, the French are satisfied that Premier Poincare has won a big political victory in calling the British bluff and that Premier Baldwin and Lord Curzon dare not go through with their threat to negotiate a separate reparations agreement with Germany.

The Temps tonight heads its editorial: "Without Fear of Reproach," the article insisting on France's determination to carry out a policy of forcing Germany to pay even if left alone—and abandoned by Belgium. The newspapers pointedly ask how a separate agreement between Great Britain and Germany could aid the latter with French troops holding the Ruhr, as it is admitted in London, Berlin that it is the occupation of this region that is smashing the Teuton empire.

REPLY IS QUESTIONNAIRE.
Poincare's reply to Lord Curzon's specific proposals with a questionaire, just one long list of interrogations, is considered to be a good joke on the British and is believed that Premier Baldwin dare not openly seize this reason as one for a disavowal of the Entente.

As has already been announced, Poincare has been largely induced to stand pat and not yield to the British demands by the unofficial advice of certain powerful and influential Americans now, or until recently, in Paris, who as—

Weeks in advance of the Cabinet's resignation, it is stated that three Filipinos toured the islands feeling out the sentiment against Gen. Wood and arousing the people by attacks upon his administration. Their attacks usually took the form of criticism of Gen. Wood's policy with reference to the Philippine Railway, or his policy regarding the sugar centrals, but in some instances their campaign took a distinctly anti-American turn.

The results obtained on this tour of Mindanao and Luzon, coupled with the wide publication in the Philippines of a report that a well-known American newspaper publisher with a great string of newspapers in the United States had opened up a vehement campaign against the Governor-General, convinced Quezon and his adherents that the time was ripe both in the islands and in America to try issues with Gen. Wood.

Gen. Wood has reported to the return to Manila after an inspection tour of the Province of Samar, where a typhoon was reported to have done great damage. The general stated in his report that the damage was much less than at first stated and that there was no loss of life. He reported all quiet in Manila.

TO GET NEW POSTOFFICE
(EXCLUSIVE DISPATCH)
SAN FRANCISCO, Aug. 1.—Rakerfield is at last to have a new postoffice. Senator Rakerfield today received a telegram from the Treasury Department in Washington advising him that final plans for the erection of a Federal building there had been approved. The building will cost \$134,000, and will be of the architectural design and the best of construction.

RECOVERY GRADUAL

Harding Resting Comfortably

President Rather Restless During Day From Attack of Indigestion

Temperature, However, Back to Normal; Condition of Lung Improved

(BY A. P. NIGHT WIRE)
PRESIDENTIAL HEADQUARTERS, PALACE HOTEL, SAN FRANCISCO, Aug. 1.—President Harding was resting comfortably tonight after a day described by his physicians as "somewhat restless" but yet marked by many indications that he was slowly, but surely, winning his way back to health.

The restlessness of the day was in part due, it was stated by the physicians, to a slight and only a slight attack of indigestion resulting from inability to assimilate two soft-boiled eggs eaten for breakfast. This condition, however, was more than overbalanced by the decline of the President's temperature to normal for the first time. Mention of both of these elements in the President's condition was made by the attending physicians in a bulletin issued at 4:50 o'clock this evening. The bulletin added that there was evidence of "slight improvement" in the condition of the lungs, where considerable patches of broncho-pneumonia have existed since Monday. The pulse, according to the bulletin, varied during the day between 116 to 120 and the respiration from 36 to 40.

OFFICIAL BULLETIN
The official bulletin issued at 4:50 p.m., said: "The President is now feeling comfortably after a somewhat restless day."

The temperature reached normal during the day and the pulse has varied from 116 to 120 and the respiration from 36 to 40. There is evidence of slight improvement in the lung condition. Otherwise there is no marked change.

(SIGNED)
"RAY LYMAN WILBUR, M.D."
"C. M. COOPER, M.D."
"J. T. BOONE, M.D."
"HUBERT W. W. M.D."

SAVING TAKES STOCK
Brig-Gen. Sawyer, personal physician to President Harding, after "taking stock," as he said, of the condition of his patient, declared that the President's condition was normal and had improved. He said that the President's temperature was normal and had improved. He said that the President's pulse was normal and had improved. He said that the President's respiration was normal and had improved. He said that the President's condition was normal and had improved.

Declaring that "indications look favorable," Sawyer said that the task of the President in regaining his health would be a tedious one, for he still "is a sick man." The physician also pointed out that there most probably would be "ups and downs."

Sawyer said that the President's condition was normal and had improved. He said that the President's temperature was normal and had improved. He said that the President's pulse was normal and had improved. He said that the President's respiration was normal and had improved. He said that the President's condition was normal and had improved.

ORGANIZE HEADQUARTERS
With this situation existing there was a setting down during the day to the task of bringing about a complete recovery of the country and require an indefinite number of

HARDING TO BE GUEST OF STATE OF CALIFORNIA

Los Angeles and San Francisco Committees Turn Over Funds to Finance Hospitality

BY ROBERT B. ARMSTRONG
(EXCLUSIVE DISPATCH)
SAN FRANCISCO, Aug. 1.—President Harding is to be the guest of the State of California while he remains here and the commonwealth will do all in its power to supply every aid to restore him to complete health before he leaves the borders of the State.

Today after a conference over the long-distance telephone the committees on arrangements of both Los Angeles and San Francisco agreed to turn over the unexpended balances of these committees to a State fund to provide everything necessary for the comfort of President Harding. It is probable that this fund will be turned over to Gov. Richardson and be expended in obtaining for the Chief Executive of the nation all desirable facilities for his comfort.

MID-PACIFIC ARMY SCOPE IS EXTENDED

Hawaiian Department Is Increased More Than Nine Times

(BY CABLE AND ASSOCIATED PRESS)
HONOLULU, Aug. 1.—The Hawaiian department of the United States Army has been increased to include virtually all of the Pacific Ocean between the mainland and the Philippines, according to War Department orders received here today.

The new allocation of Army territory places eight additional islands and groups of islands within the jurisdiction of the Hawaiian department, and increases the area by more than nine times, making the department the largest in area of the Army, although the number of troops stationed in the department which were approved by high ranking officials who have visited the Hawaiian Islands during the past few months.

PARIS, Aug. 1.—M. Paul Leconte captured the world's fastest record previously held by the American, Macready, this afternoon when he flew to the height of 11,000 meters. He had been making trial altitude flights for the last month in an effort to set the record, which he never has held before.

Most of the doctors in attendance on President Harding have been of the opinion that the President's condition is improving. They believe that the President's condition is improving. They believe that the President's condition is improving. They believe that the President's condition is improving. They believe that the President's condition is improving.

These medical specialists insist that the greatest need is to protect the President against too quick a return to the routine of Washington office life and the possibility of a relapse due to the sickness from which he is now recovering and therefore they proposed a period of rest and relaxation here and then three or four months of limited duties and definite exercise before returning to the full routine of the Presidency.

It is believed that all the details of this plan to entertain the President as the guest of the State of California during his convalescence will be worked out within the next forty-eight hours and a formal announcement made of this plan.

FOUR SAVED FROM
SUBMERGED AUTO
(EXCLUSIVE DISPATCH)
GARY (Ind.) Aug. 1.—I. Shor, his wife and two daughters of Cleveland, O., were rescued early today from death when their car, less than 20 years of age, dove into the Little Calumet River here and broke in two. The Shor sedan in which the quartet was imprisoned under water when the motor car ran off a bridge. The doors were so securely fastened that the prisoners could not free themselves.

EXPLOSION IN ICE PLANT
(EXCLUSIVE DISPATCH)
NEW YORK, Aug. 1.—Brooklyn police headquarters received a report today that a serious explosion had taken place in the Philadelphia Coal and Ice plant in Queens. Fire followed. Ammonia fumes prevented the firemen from approaching the scene, but all employees escaped.

BANK OF ITALY
BUYS ROAD BONDS
(BY A. P. NIGHT WIRE)
SACRAMENTO, Aug. 1.—A block of \$1,000,000 in 4 1/4 per cent State highway bonds was purchased today by the Bank of Italy in a public auction held in the office of State Treasurer Charles C. Johnson at the State Capitol. The bank, which was the only bidder, took the bonds at par and \$2,305.60 in accrued interest. The bonds were part of an issue of \$4,000,000 and this was the fifth time they were placed on sale. The 22nd issue was set as the date for the sale of the remaining \$2,000,000.

STRIKE THREATENED
BY RUHR WORKERS
(BY CABLE—EXCLUSIVE DISPATCH)
BERLIN, Aug. 1.—A big strike is threatening in the Ruhr district as a result of the confiscation of paper marks by the French and the consequently increased difficulties in making payment expenses. It is asserted, however, that the movement must have a preliminary strike of military help from the French.

Undoubtedly the separatist plan is maturing, but the movement is still embarrassed by the lack of capable leaders. Following their cautious proposal for a bank of gold deposits and loans for industry and commerce, the industrialists, including representatives of the Stinnes interests, are demanding the privilege of requiring foreign currency in payment for iron and steel sold within Germany.

"LEAVE SINKING SHIP"
The negotiations are being conducted by the mine owners and are not mentioned by the newspapers. The demand is being bitterly fought by metal manufacturers and other consumers of raw iron.

CHIEF OAKS IS OUSTED

Vollmer Accepts Police Post

Retiring Leader Goes Back to Rank of Lieutenant by Mayor's Act

Status of Capt. Heath Not Changed; His Case Up to Commission

Mayor Cryer late yesterday removed Chief of Police Oaks and appointed Arthur Vollmer, Chief of Police of Berkeley, Cal., to fill his place. Lack of confidence in Chief Oaks was the only reason given by the Mayor in his statement announcing the removal and appointment. Both became effective yesterday afternoon.

The status of the case against Capt. R. Lee Heath, dismissed from the police department by Chief Oaks, remains unchanged, according to officials at the City Hall. His application for a hearing by the Police Commission is formally before that body and must be disposed of by the Police Commission. The status of the case against Capt. R. Lee Heath, dismissed from the police department by Chief Oaks, remains unchanged, according to officials at the City Hall. His application for a hearing by the Police Commission is formally before that body and must be disposed of by the Police Commission.

Chief Oaks was notified of his removal only a few hours after his appearance before the Police Commission to press charges of political activity, inefficiency and ineffectiveness against Capt. Heath. The latter's removal was delivered to his office in his absence and was not made public for a little more than an hour.

RESUMES OLD TASK
Upon being advised of the Mayor's action Chief Oaks began to clear out his desk and prepared himself to resume his duties in the detective bureau. He held the rank of detective lieutenant, under civil service. The Chief's last of detective bureau was a detective in which he expressed the hope that the fight against pernicious political interference with the police department will continue.

Pending the arrival of Chief Vollmer, Arthur Heath will be in charge of the department. Chief Vollmer is one of the best-known police officers in the United States. He is a recognized authority on police administration and has written several books on the subject.

The Mayor's action came like a thunderbolt out of a clear sky. Chief Oaks had been in the position of Chief of Police of the city of Los Angeles for more than a year. He had been in the position of Chief of Police of the city of Los Angeles for more than a year. He had been in the position of Chief of Police of the city of Los Angeles for more than a year.

Chief Oaks Ousted by Mayor; Vollmer to Head Local Department

NOTED EXPERT ACCEPTS POST

Retiring Chief Goes Back to Rank of Lieutenant

Case of Capt. Heath is Up to Commission

Oaks Takes Final Fling at Political Influences

(Continued from First Page)

to their greeting, and handed them the Mayor's letter. Outside his office business continued as usual. He did not lose any time in cleaning out his desk. Before leaving his office he issued the following statement:

"There is very little comment necessary for me to make on my removal to those who have been following the trend of affairs, especially of political influences during the past few days. While I am sorry that this should happen at this time in view of the pending developments I cannot help but feel immensely relieved from a personal standpoint.

"The pressure of invisible politics has so handicapped and harassed me for the past three months that I have been utterly unable to do justice to my official position. I am weary and sick of the job and it is my prediction that only chief who follows me will turn be weary and sick as long as the same forces are permitted to assail him that have confronted me in my attempts to police this city. I am but one man.

"I have been removed and shall go back to my civil service rank of detective lieutenant conscious that I have tried to do my duty. But there will follow me and if the people of this city hope to have their police forces render their lives and their property safe, they must see to it and at once that this department is freed from the incubus that is hanging around its neck.

"Los Angeles has the finest body of men, in my opinion, that make up any police department in this country. They are not functioning, but it is not their fault. Give them a real chance and see what they can do. I hope that the man who succeeds me will give the men of this department a square deal and a real chance. My thought at this time is for the men and for the city, not for myself."

LEE COO APPROVES

"That's good," was the comment of Police Commissioner De Coo when he was advised of Chief Oaks' removal.

"I tell you, I am sure the Mayor felt, for some time that Louis Oaks was at cross-purposes with the aims of the city. He was the reason for the Mayor's order to Chief Oaks not to remove Capt. Heath from Central Station and not to hinder him in the investigation of the vice squad," Mr. De Coo said.

Mr. De Coo said he was not certain just what would come of the Heath charges. He added that he thought the charges will not be dropped simply because the man who made them is no longer Chief. "I feel, for one, that any citizen should be able to make charges against any police officer and that charges made in good faith should be considered by the commission."

The Mayor's action in removing Chief Oaks has not changed his views on politics in the police department, Commissioner De Coo said.

"Politics by and for policemen will have to go from the department, that's certain. I admire the spirit shown by the Mayor and am certain that he will apply it to the danger of political influence in the police department."

Mr. De Coo added that he was in sympathy with any movement to bring about the cleaning out of the political mess in the department.

Commissioner De Lamonte is known to have taken a similarly strong stand against political interference with the conduct of the police department and aligned himself with a movement to help in the betterment of conditions in that respect.

HEARING CONTINUED

The hearing was continued till 10 o'clock this morning when Attorney H. K. Elder, representing Ray Munno, who is to be Capt. Heath's attorney at the hearing.

Ex-Chief Oaks and Mayor Cryer; August Vollmer, Newly-Appointed Chief, is Shown in Inset

DARING FEAT WON OAKS JOB

Ousted Police Chief, on Force Since 1910, Attained Fame in Solving Witherell Mystery

Informing the Police Commission that Mr. Oaks was in court and would be unable to appear before the commission in time. Just previously to this Commissioner De La Monte moved for a suspension of the rules to permit Capt. Heath to be represented by an attorney. The motion was granted by the commission.

The next motion came from Commissioner De Coo who moved that Attorney Frank Belcher be permitted to associate himself with the case as a special prosecutor to represent the Chief, at that time still holding his position. There was a little question regarding this and finally both commissioners agreed to permit Mr. Belcher to appear, after hearing Mr. Oaks state it was his desire that Mr. Belcher represent him. Mayor Cryer did not vote.

That the first matter to be considered by the commission will be the political activity charges against Capt. Heath was indicated by the attempt to take the testimony of Fire Chief Scott.

SCOTT GOING EAST

Chief Scott, the commission was told, is leaving for the East to night. It was finally decided to have him give testimony this morning.

His evidence, it is expected, will be on the subject of the meeting said to have been held by him and firemen, in the interest of a councilman, ticket at the last municipal election.

The meeting in question, the charges against Capt. Heath said, led the participants to the office of Kent K. Parrot, one of Mayor Cryer's political advisers.

The Civil Service Commission yesterday received a communication from the Municipal League, recommending it for the change in rules governing the forthcoming civil service examination for the office of Chief of Police. The change eliminated the one-year residence clause, making the examination open to the best available material in the country.

The following formal statement was issued last night by the Los Angeles Crime Commission:

The law-abiding citizens of Los Angeles and community are greatly to be congratulated upon securing as Chief of Police the service of Chief August Vollmer of Berkeley.

Several months ago the Los Angeles Crime Commission started a survey of the leading police officials of the country. It found that Chief Vollmer was recognized as one of the most able, successful, progressive and forward-looking of all of our police executives.

After making a first-hand study of his methods and the successful results he has achieved, the Crime Commission invited Chief Vollmer before it and discussed with him in detail the police problems of this city.

Chief Vollmer stated that he would be willing to come to Los Angeles as Chief of Police and help solve its problems provided he could devote himself solely to policing the city and would not have to battle politicians or political influences either within or without the department.

The Crime Commission then informed Mayor Cryer that Chief Vollmer was available.

Chief Vollmer is familiar with the most advanced police methods not only of this country but of Europe. He has proved his ability. If the good people of this city will back him and see that he is not hampered by political influences, there is every reason to hope and expect that he will make a police department one of the finest anywhere, and make this city and community one of the safest places for law-abiding men and women in the United States.

REPLACED EVERINGTON

Chief Oaks took command of the police department after Col. James W. Everington had been forced from office by Mayor Cryer. When he took command of the department he at once appointed Capt. Richard Hill to act as

First Deputy Assistant Chief of Police and made Capt. Charles Jackson, Second Deputy Chief of Police.

The one outstanding piece of police work to the credit of Detective Oaks before he was appointed Chief of Police was the capture of the Carr cousins, kidnapers of Mrs. Gladys Witherell. Since his appointment Chief Oaks centered the attention of the nation on himself by the bold attempt to kidnap "Little Phil" Alguin, a boy of 12, from his home in Mexico and return him to the United States. The attempt failed and Chief Oaks' assistants in the affair were arrested by the Mexican police but later released.

Before appointing Detective Oaks on April 23, 1922, Mayor Cryer announced that the police officer had first come to his attention as a result of the Witherell case and that he had then investigated his record and believed that he would make a good Chief of Police. He stated that he was appointing him as his own selection and not that of any politicians.

MANY HIRED AND FIRED

The removal of Chief Oaks yesterday makes the eleventh man to be removed from the position of chief during the past fourteen years. The names of police department commanders read like a serial story.

The list is as follows: Chief Oaks appointed April 23, 1922, removed August 1, 1923. Col. James W. Everington appointed and discharged within three months.

Charles A. Jones in office six months.

Lyle Pendergast chief a little less than a year.

George K. Home a little less than a year.

John Butler, about three years.

Claire Snively lasted just three months.

Charles Sebastian, chief about five years.

Alexander Galloway, chief for less than a year.

E. F. Dishman, a little less than a year.

Thomas Broadhead, in office less than three months.

MINIMUM CAR WEIGHT SCORED BY COMMISSION

(REUTERS DISPATCH) WASHINGTON, Aug. 1.—The Interstate Commerce Commission today found unreasonable minimum weights on interstate shipments of heavy machinery.

Under the order entered by the commission the railroad rates required to establish the minimum weights, which range from 15,000 pounds in single-deck cars to 20,000 pounds in double-deck cars, were reduced to 10,000 pounds in single-deck cars and 15,000 pounds in double-deck cars.

SAYS HE SAW KILLING OF VIRGINIA PREACHER

(BY A. P. DAY WIRE) CUMBERLAND COURTHOUSE (Va.) Aug. 1.—Shad R. Wilson testified today that he was attracted to Rev. E. S. Pierce's home by the screaming of women on the day the minister was shot to death.

He found L. C. Garrett sitting on him and beating him in the face, while Robert Garrett stood by with a pistol in his hand. He testified he saw Robert Garrett fire several shots into the minister's body before and after he fell to the ground.

CHIEF VOLLMER WAS BORN HERE

Returns to Head Police of Native City

Moved to Berkeley When He Was 14

Has Made Great Record in His Work

August Vollmer, appointed Chief of Police of Los Angeles by Mayor Cryer yesterday, is coming back to head of the police department of the city in which he was born and spent his boyhood.

Chief Vollmer, who has headed the Berkeley police department for the past seventeen years, was born in Los Angeles forty-eight years ago, and moved from here to Berkeley with his parents at the age of 14. His seventeen years as chief in Berkeley have gained him an international reputation as a criminologist and the nickname of "Golden Rule" Vollmer.

During the Spanish-American war he served in the Philippines in the Third Artillery, United States Regulars, participating in fifteen battles there. He was mustered out in August, 1899, and became a letter carrier in Berkeley.

In 1905 he was elected Town Marshal of Berkeley on a platform pledging himself to bring the office to such a state of efficiency that it would no longer be a butt of ridicule as it had been.

CLOSED "BLIND PIGS"

In less than a year he had closed all the "blind pigs" and made Berkeley a dry town. He next cleaned up the city of criminals and settled down to his study of "why is crime?" The force he took charge of consisted of three men.

CHIEF VOLLMER WAS BORN HERE

Returns to Head Police of Native City

Moved to Berkeley When He Was 14

Has Made Great Record in His Work

August Vollmer, appointed Chief of Police of Los Angeles by Mayor Cryer yesterday, is coming back to head of the police department of the city in which he was born and spent his boyhood.

Chief Vollmer, who has headed the Berkeley police department for the past seventeen years, was born in Los Angeles forty-eight years ago, and moved from here to Berkeley with his parents at the age of 14. His seventeen years as chief in Berkeley have gained him an international reputation as a criminologist and the nickname of "Golden Rule" Vollmer.

During the Spanish-American war he served in the Philippines in the Third Artillery, United States Regulars, participating in fifteen battles there. He was mustered out in August, 1899, and became a letter carrier in Berkeley.

In 1905 he was elected Town Marshal of Berkeley on a platform pledging himself to bring the office to such a state of efficiency that it would no longer be a butt of ridicule as it had been.

CLOSED "BLIND PIGS"

In less than a year he had closed all the "blind pigs" and made Berkeley a dry town. He next cleaned up the city of criminals and settled down to his study of "why is crime?" The force he took charge of consisted of three men.

As Chief of Police of Berkeley Vollmer not only built up a large and efficient force of which the city is proud but made a name for himself as a police executive and a criminologist. He was elected President of the International Association of Chiefs of Police and became a recognized leader in his chosen profession.

Following are some of the things he is credited with accomplishing: Establishment of the first motorized police department in the world, which he has planned to equip with wireless telephones.

Installation of the first "red light" signal system in the world. Establishment of the first modern operant system for the identification of criminals by the methods in which they commit crimes.

Establishment of a system for the classification of handwriting and the perfection of an index. Perfection of a supplementary finger-print system whereby the print of a single finger is sufficient to establish the identification of a criminal.

BLOOD PRESSURE TEST

Installation of a blood-pressure instrument to ascertain whether a suspected person is telling the truth.

Establishment of a department of criminology in an institution of higher education.

Vollmer is claimed, also conceived the plan for the State Bureau of Identification which was established at Sacramento.

Chief Vollmer is a believer in the employment of women in police work. He has had many of his criminology classes in the summer sessions of the State university, which in 1915 established a department of criminology.

LECTURE BY CONVICT

On one occasion he brought a convict from San Quentin to lecture at the University on "salvaging" and the criminal's state of mind, a lecture which stirred great enthusiasm among the college students.

The usual opposition between University students and the town police has been completely overcome by Chief Vollmer. He has been extraordinarily popular among the students, who have almost always co-operated with the police in maintaining order.

"Chief Gus" himself is an all-around athlete, and something of an amateur in many sports, including tennis, golf, and swimming.

He is well known in San Francisco as a swimmer and gymnast, tumbling being his special interest. Several years ago, shortly after his appointment as Chief at Berkeley, he rescued two girls in the Russian River at Monterrey, where he was on vacation.

When the town of Berkeley was troubled by a number of gangs of boys, Chief Vollmer instituted a "junior police" system, persuading boys from each of the gangs to help the police preserve order.

SPEEDIEST VESSEL DELIVERED TO NAVY

(BY A. P. DAY WIRE) BOSTON, Aug. 1.—After final tests in which a speed of 35 knots an hour was attained, the United States scout cruiser Detroit was delivered to the Charlestown Navy yard by the Fore River shipbuilding branch of the Bethlehem Steel Corporation. The Detroit developed 100,000 shaft horsepower and the tests and is said to be the highest powered vessel ever constructed in the United States.

MILWAUKEE FIRE TAKES THREE LIVES

(BY A. P. DAY WIRE) MILWAUKEE, Aug. 1.—Three men were burned to death and three others are missing in a fire which swept the Greenfield-avenue plant of the Milwaukee Coke and Iron Company here today. The fire started with an explosion in the building used for the storage of scrap iron and spread so rapidly and burned so fiercely that the men were unable to get within a block of the place until it had partly burned itself out.

Celery crop of California for this year totaled nearly 1,500 carloads.

POLICY DUE ON ESPEE MERGER

Statement Will be Issued by Daugherty in Few Days

Matter Was Settled Before Harding Became Ill

Raisin Investigation Said to be on Calendar

(BY A. P. DAY WIRE) SAN FRANCISCO, Aug. 1.—The Harding administration's policy regarding the Southern Pacific-Central Pacific merger will be announced within four or five days, according to a statement made here today by Atty.-Gen. Harry M. Daugherty, who arrived from Seattle to confer with President Harding and the Cabinet members who are here with the President.

Atty.-Gen. Daugherty desired to talk with the President before issuing a formal statement relative to the administration's policy on the Southern Pacific-Central Pacific merger, but said in event the President was unable to talk on the subject that the statement would be issued anyway. He intimated that the matter had been definitely settled by the Cabinet members and the President before the latter was taken ill.

PLAN RAISIN QUIET

The Attorney-General said while he was in the West he probably would participate in an inquiry concerning an alleged monopoly of raisin-growing interests in California and also assist in an investigation into the San Francisco building material dealer cases in which charges of monopoly have been made.

The case of the San Francisco building-material dealers is an action to restrain a group of building contractors and building material firms here from continuing an alleged combination in restraint of trade under the Sherman antitrust law.

The criminal penalties of the law are not applicable to the action because the members of the supposed combination were tried criminally under conspiracy, trust statute and acquitted and the theory of "once in jeopardy" applies.

INVESTIGATION STARTED

The first suit was instituted by a plumbing firm which complained that it was being denied materials by the supposed combination because it employed only union labor. Before this suit ended the government started an investigation with the result that the restraining action was brought.

The actions had their root in a partially successful attempt of the contractors to break a strike here by recruiting non-union labor. Virtually all of the important contractors and material firms in the city are involved.

FRESNO, Aug. 1.—Commenting on the statement of Atty.-Gen. Daugherty in San Francisco today saying "While in the West he probably would take part in an inquiry concerning an alleged monopoly of raisin-growing interests in California," officials of the Sun-Maid Raisin Growers' Association have authorized a statement that they did not know of any such inquiry and further that the present growers' contract had been approved by the government.

San Francisco and the raisin association officials also denied the reported inquiry at that time.

More than 12,000 clinical thermometers were tested last year by the temperature and heat section of the United States Bureau of Standards.

BY CRIME COMMISSION

That Body Brings Chief Vollmer Here and Secures His Promise to Head Police

August Vollmer of Berkeley, Los Angeles' new Chief of Police, was approached several weeks ago by the Los Angeles Crime Commission, and the proposition made to him that he should come to this city, either under appointment as Chief of Police or as an entrant in the civil service examination to be conducted September 5 to 11 at that office.

The local situation was explained to him in detail at an executive session of the Crime Commission at the Athletic Club and he expressed himself as willing to undertake the work on a few days' notice. The Crime Commission then applied Mayor Cryer that Chief Vollmer was available and would accept the position after thirty days' notice, however, the members of the commission pointed out that the civil service ruling making a year's waiting period a prerequisite for candidates for examination as Police Chief would bar out Chief Vollmer.

Chief Vollmer also intimated that he would like to see something of the kind in effect here. Detroit was able to show a reduction in the early detection of criminal tendencies in our youth.

"I am very much impressed with the record which Detroit has made through its unified court system and I would like to see something of the kind in effect here."

FUNERAL PLANNED

Long Beach Laid to Rest in South

(REUTERS DISPATCH) PORTERVILLE, Aug. 1.—The body of Noel Hughes, 16-year-old son of Rev. and Mrs. A. A. Hughes of Long Beach, who died as he was carried into a local hospital last night following injuries sustained yesterday morning in a fall from a forty-foot tree at Camp Wilson, where he was attempting to set up a wireless station, will be shipped to Long Beach tonight for burial. An inquest was held at Roberts' undertaking parlor this morning.

Young Hughes climbed between two high tension wires carrying 11,000 volts each. Wires of the lines were twisted together and the lad was knocked to the ground, receiving internal injuries and a fractured skull. He had planned a month's vacation at Wilson's, arrived this morning.

GRAIN CONTROL BILL URGED IN ARGENTINE

(BY A. P. DAY WIRE) BUENOS AIRES, Aug. 1.—A government bill seeking to control the grain trade, presented to Congress last night, proposes the estimate of standard classifications for all cereals which would be subject to export duties. The bill also asks Congress to appropriate \$50,000,000 pesos for elevator construction pending centers.

MARINES WILL BOOST DENBY FOR PRESIDENT

(BY A. P. DAY WIRE) CHICAGO, Aug. 1.—A "Denby-for-President" club is to be organized here by former members of the Marine Corps, according to Charles O. Blake, in charge of its movement. An organization meeting will be conducted on the 11th inst., at which plans will be discussed for putting the Denby boom on a national basis. The Secretary of the Navy formerly was a "boon private" in the marines. He has been informed that the plans being made here.

COINCIDENT Young Men

Each month scores of cases, involving rooms of money and Department of records are laid before the state, whose decision is important in the matter of executive duty.

Above all these items of routine, which often pile the Executive's desk high, he must find time to devote to the work, the streams of that daily invade the White House.

BY CRIME COMMISSION

That Body Brings Chief Vollmer Here and Secures His Promise to Head Police

August Vollmer of Berkeley, Los Angeles' new Chief

THURSDAY MORNING.
URGENT ASSISTANT FOR PRESIDENT
Executive is Proposed
More Than One-Man Job
Running Administration
Tremendous Routine Taxes
Presidential Vigors
WASHINGTON, Aug. 1.—Reports from San Francisco indicate the extent to which fatigue has entered as a disturbing factor in the illness of President Harding have revived with increased vigor the proposal for the creation of the post of assistant president and defining his duties and salary should be offered at the session of Congress which will convene in December.
FATAL CRASH OF AUTO IS HELD TO BE ACCIDENTAL
BREA, Aug. 1.—An inquest was conducted at McAuley Funeral Chapel in Fullerton this afternoon to place the blame of the auto accident resulting in the death of David Jamison of Brea, who died last night at Anaheim Sanatorium. The coroner's jury returned a verdict of accidental death.
SAPS VIGOR
Veteran White House attaches, realizing that Theodore Roosevelt never regained his full vigor after completing his Presidential service, and that Woodrow Wilson never lives a broken man as a result of his arduous duties in the Presidency, while now President Harding lies ill with his condition aggravated by the countess hours he has been compelled to devote to routine matters, do not hesitate to express the opinion that Congress should be called upon to legislate for an assistant president, if in future years the commission as Chief Executive is not to constitute, at the same time, what in effect would be a death warrant.
FUNERAL PLANNED
The funeral of the late David Jamison, who died last night following an auto accident, will be held at 10 o'clock tomorrow morning at the funeral home of Long Beach, where he was carried to a local hospital last night following an auto accident. The funeral will be held at 10 o'clock tomorrow morning at the funeral home of Long Beach, where he was carried to a local hospital last night following an auto accident.
RAIN CONTROL BILL
URGENT IN ARGENTINE
BUENOS AIRES, Aug. 1.—A government bill seeking to control the rain trade, presented to Congress at night, proposes the estimate of annual losses of \$5,000,000, which are caused by the lack of rain, to be paid to the government. The bill also asks Congress to appropriate \$5,000,000 for the construction of a dam to control the rain trade.

RECOVERY OF HARDING SLOW
(Continued from First Page)
days, most of which will be spent in San Francisco. The headquarters, hurriedly established here last Sunday morning, were altered in some respects to promote efficiency and so that there may be the same smooth running condition that obtains at the White House in Washington.
The formal day bulletin spoke of the President as being fairly comfortable after the night's sleep, which was the best he has obtained since he was taken ill, of low labored breathing, only a slight cough, regular and satisfactory elimination, and a lung condition about the same as yesterday when it was said there were evidences of broncho-pneumonia. It gave his temperature as 99 degrees, pulse 114 and respiration 20.
The amount of nourishment taken by the Chief Executive during the day still was small, but as one of the physicians said, "quite sufficient." It continued to consist of milk, soft-boiled eggs, a little toast, and fruit juices.
VISIT FROM SISTER
Another indication of progress was that he received his first visitor in two days, Mrs. E. E. Rembert of Santa Ana, his sister. She with her daughters, Katherine and Nell Marie, arrived in San Francisco early in the day, and shortly before noon she spent several minutes in her brother's room but was requested by the physicians not to talk with him as it might tire him. She said there was every indication that the President had been "very sick man."
At the request of Mrs. Harding, she and her daughters took quarters in the hotel and were the guests of Mrs. Harding at lunch. Mrs. Harding, Mrs. Rembert said, had stood the strain very well. It was learned from other sources that Brig. Gen. Sawyer, the President's personal physician, and Lieutenant Commander Joel T. Boone, assistant to Dr. Sawyer, are not unimpaired that with the lessening of the strain, the active effects of the President's illness might be felt by Mrs. Harding, who, for the past year has been in poor health.
Atty-Gen. Daugherty also arrived during the day, having hurried here from Seattle, when the President's illness became alarming. He spent some time in the Presidential suite, and although perhaps closer to the Chief Executive than any person in San Francisco, excepting members of Mr. Harding's family, he did not see the President. He took rooms at another hotel as he has a number of matters of official business to take care of, but will call frequently to inquire as to the progress of the President.
ARRANGE FOR RETURN
Plans for the future following the restoration of the President's strength continued to be discussed by members of the party, and the plan seemingly most favored at this stage is for a return to Washington by the overland route as soon as the President is well able to travel. In such an event the Presidential train would make no attempt at speed, would run on a schedule that would take it through heated valleys and across the desert during the cool hours of the night, so far as possible, and at other times stop for the night so that the rest of the President might not be disturbed. There was no attempt to fix any date for departure from San Francisco for manifestly the President's present condition would permit it, as encouraging as it appeared today to be. Any plan decided on will be on the advice of the physicians.
The President asked Gen. Sawyer during the day if it would be possible to begin the trip to Washington Sunday, but was told by his physician that no thought yet had been given to that question. The doctor in attendance would consent to his further travels at the earliest moment he was sufficiently recovered in health and strength to start home, the President was told.
Gen. Sawyer reiterated that the Chief Executive's condition was not as serious as it had been at the time of his illness and while all members of the party would be glad to have him once more in the White House, the present hotel accommodations were satisfactory in every respect and there would be no hurry to move.

AWAIT SPEECH OF BALDWIN
(Continued from First Page)
sured the Premier that the United States as a whole, would applaud France in insisting on her rights and refusing to be dictated to by London.
BRITISH CABINET BUSY
By John Steele
[RECEIVED BY CABLE-EXCLUSIVE DISPATCH]
LONDON, Aug. 1.—The British Cabinet has been in almost continuous session for the last two days discussing the Anglo-French crisis, on which it is now definitely announced that Premier Baldwin will make a statement before the House of Commons and Lord Curzon before the House of Lords before they adjourn for the autumn holiday tomorrow. There were two meetings of the Cabinet yesterday and two today, while another has been called for tomorrow.
It is understood that the Premier will say plainly that negotiations with France cannot be continued on the present basis, and will either recommend the British government to consider the attitude of the Allies toward Germany or will announce a decision and send a reply to the German note independently of France but probably with the concurrence of Italy.
MAINTAIN SECRECY
It was stated today in some of the British papers that the correspondence between England and France would be published today, but Baldwin stated in the House of Commons this afternoon that it would be impossible to do this at present. Among other reasons, it would be discourteous to France, which has been insisting on secrecy, to publish the correspondence before a definite break occurred. If such a break does occur, the whole correspondence in detail will be given to the British public.
I learn today that the Poincare note turned down every British proposal, some of them even with contempt. For instance, dealing with the suggestion for an international commission to estimate the capacity of Germany to pay and suggest a means of payment, M. Poincare says he has no objection to the commission provided that the full claims of France for reparations remain untouched and provided that she retains all the productive pledges she has recently seized until such time as full payment is made.

WIFE LOOTS HOME; HE CAN'T PAY BILLS
COAL DEALER IN COURT SAYS MATE TOOK \$50,000 FROM HIM
NEW YORK, Aug. 1.—How a prosperous 50-year-old man lost both his 24-year-old wife and virtually all his movable property was revealed today when papers were filed in the Supreme Court for confirmation on an examination in supplementary proceedings against George C. Lewis, coal dealer.
Lewis was unable to pay a bill for \$75,000 from the Blue Ridge Coal Company. Judgment was taken, and it was ordered by the Supreme Court that Lewis be examined by J. Goldstein, J. Goldstein representing the creditor. Under oath Lewis told the story of how his Riverside Drive home had been looted by his wife, formerly a Baltimore belle, while he was at a motion picture show.
"On the evening of April 13 last," said Lewis, "my wife took me in our automobile from our home to the Bunty Theater. She told me the picture was a good one and that I should enjoy it while she drove the car over to the garage. I waited in the theater but she did not return.
"Then I went home and found the apartment cleaned out. She didn't even leave me a sheet. She took away all the silverware, furniture, everything." The coal merchant listed \$70,000 worth of stocks and bonds as among the loot.
"The total value of the property taken by my wife is \$50,000," he continued, "if I could find her as I have tried, I would like to get by property I could easily pay the claim of the coal company and live comfortably with the rest of my life."
SUPER-DREADNAUGHT READY THIS MONTH
[RECEIVED BY CABLE-EXCLUSIVE DISPATCH]
WASHINGTON, Aug. 1.—The new super-dreadnaught Colorado is to be placed in commission on the 30th inst. It was stated today at the Navy Department. The Colorado and her sister ship, the West Virginia, now nearing completion, will be the last battleships constructed in this country in ten years under the terms of the naval limitation treaty. They are to replace the battleships of the North Dakota class. With the commissioning of the Colorado and West Virginia, there will be a squadron of three battleships carrying sixteen-inch rifles, the third being the Maryland, now in commission. All three vessels are expected to be assigned to the Pacific Fleet.
GAIN SHOWN IN WOOL CLIP OVER LAST YEAR
[RECEIVED BY CABLE-EXCLUSIVE DISPATCH]
WASHINGTON, Aug. 1.—The United States wool clip this year is 228,000,000 pounds, the Department of Agriculture announced today in its preliminary estimate. Last year's clip was 220,155,000 pounds, and it was 223,062,000 pounds in 1921; 232,005,000 pounds in 1920, and 249,005,000 pounds in 1919. The estimate of this year's clip by principal States follows: Texas, 19,000,000; Montana, 18,000,000; Wyoming, 18,000,000; Utah, 17,000,000; Idaho, 15,000,000; Ohio, 14,815,000; California, 14,815,000; Oregon, 13,200,000 pounds. No other State had as much as 10,000,000 pounds.
MRS. CORA BULLOCK DIES
Mrs. Cora Belle Bullock died yesterday at her home, 1221 North Broadway, of a heart ailment. She was taken to the parlor of the Reed Brothers-Dellenbaugh Company, 500 South Flower street. Funeral arrangements have not been made.

At the request of Mrs. Harding, she and her daughters took quarters in the hotel and were the guests of Mrs. Harding at lunch. Mrs. Harding, Mrs. Rembert said, had stood the strain very well. It was learned from other sources that Brig. Gen. Sawyer, the President's personal physician, and Lieutenant Commander Joel T. Boone, assistant to Dr. Sawyer, are not unimpaired that with the lessening of the strain, the active effects of the President's illness might be felt by Mrs. Harding, who, for the past year has been in poor health.
Atty-Gen. Daugherty also arrived during the day, having hurried here from Seattle, when the President's illness became alarming. He spent some time in the Presidential suite, and although perhaps closer to the Chief Executive than any person in San Francisco, excepting members of Mr. Harding's family, he did not see the President. He took rooms at another hotel as he has a number of matters of official business to take care of, but will call frequently to inquire as to the progress of the President.
ARRANGE FOR RETURN
Plans for the future following the restoration of the President's strength continued to be discussed by members of the party, and the plan seemingly most favored at this stage is for a return to Washington by the overland route as soon as the President is well able to travel. In such an event the Presidential train would make no attempt at speed, would run on a schedule that would take it through heated valleys and across the desert during the cool hours of the night, so far as possible, and at other times stop for the night so that the rest of the President might not be disturbed. There was no attempt to fix any date for departure from San Francisco for manifestly the President's present condition would permit it, as encouraging as it appeared today to be. Any plan decided on will be on the advice of the physicians.
The President asked Gen. Sawyer during the day if it would be possible to begin the trip to Washington Sunday, but was told by his physician that no thought yet had been given to that question. The doctor in attendance would consent to his further travels at the earliest moment he was sufficiently recovered in health and strength to start home, the President was told.
Gen. Sawyer reiterated that the Chief Executive's condition was not as serious as it had been at the time of his illness and while all members of the party would be glad to have him once more in the White House, the present hotel accommodations were satisfactory in every respect and there would be no hurry to move.

WIFE LOOTS HOME; HE CAN'T PAY BILLS
COAL DEALER IN COURT SAYS MATE TOOK \$50,000 FROM HIM
NEW YORK, Aug. 1.—How a prosperous 50-year-old man lost both his 24-year-old wife and virtually all his movable property was revealed today when papers were filed in the Supreme Court for confirmation on an examination in supplementary proceedings against George C. Lewis, coal dealer.
Lewis was unable to pay a bill for \$75,000 from the Blue Ridge Coal Company. Judgment was taken, and it was ordered by the Supreme Court that Lewis be examined by J. Goldstein, J. Goldstein representing the creditor. Under oath Lewis told the story of how his Riverside Drive home had been looted by his wife, formerly a Baltimore belle, while he was at a motion picture show.
"On the evening of April 13 last," said Lewis, "my wife took me in our automobile from our home to the Bunty Theater. She told me the picture was a good one and that I should enjoy it while she drove the car over to the garage. I waited in the theater but she did not return.
"Then I went home and found the apartment cleaned out. She didn't even leave me a sheet. She took away all the silverware, furniture, everything." The coal merchant listed \$70,000 worth of stocks and bonds as among the loot.
"The total value of the property taken by my wife is \$50,000," he continued, "if I could find her as I have tried, I would like to get by property I could easily pay the claim of the coal company and live comfortably with the rest of my life."
SUPER-DREADNAUGHT READY THIS MONTH
[RECEIVED BY CABLE-EXCLUSIVE DISPATCH]
WASHINGTON, Aug. 1.—The new super-dreadnaught Colorado is to be placed in commission on the 30th inst. It was stated today at the Navy Department. The Colorado and her sister ship, the West Virginia, now nearing completion, will be the last battleships constructed in this country in ten years under the terms of the naval limitation treaty. They are to replace the battleships of the North Dakota class. With the commissioning of the Colorado and West Virginia, there will be a squadron of three battleships carrying sixteen-inch rifles, the third being the Maryland, now in commission. All three vessels are expected to be assigned to the Pacific Fleet.
GAIN SHOWN IN WOOL CLIP OVER LAST YEAR
[RECEIVED BY CABLE-EXCLUSIVE DISPATCH]
WASHINGTON, Aug. 1.—The United States wool clip this year is 228,000,000 pounds, the Department of Agriculture announced today in its preliminary estimate. Last year's clip was 220,155,000 pounds, and it was 223,062,000 pounds in 1921; 232,005,000 pounds in 1920, and 249,005,000 pounds in 1919. The estimate of this year's clip by principal States follows: Texas, 19,000,000; Montana, 18,000,000; Wyoming, 18,000,000; Utah, 17,000,000; Idaho, 15,000,000; Ohio, 14,815,000; California, 14,815,000; Oregon, 13,200,000 pounds. No other State had as much as 10,000,000 pounds.
MRS. CORA BULLOCK DIES
Mrs. Cora Belle Bullock died yesterday at her home, 1221 North Broadway, of a heart ailment. She was taken to the parlor of the Reed Brothers-Dellenbaugh Company, 500 South Flower street. Funeral arrangements have not been made.

and steel, who are supported by trade unions.
This proposal is made at a time when the German government and business circles are suffering from a foreign currency famine. If the proposal were adopted the industrial cost would be passed on to the consumers, who would have to pay marks at greatly increased prices.
In conjunction with the gold deposit bank proposal this demand looks like a deliberate attempt by the German government to get on an all-around gold basis in order that it might be able to do business with the outside world as equals, while the remainder of Germany goes to financial rot.
In short, the industrialists seem to be attempting to leave the sinking ship.
FOOD NOT EXPECTED
[RECEIVED BY CABLE-EXCLUSIVE DISPATCH]
BERLIN, Aug. 1.—The food situation in the Ruhr district has become so acute that rioting is expected any time.
Farmers of the unoccupied districts will ship foodstuffs to the occupied districts in exchange for the almost worthless money, and the Government, admit there is no way of forcing farmers to ship their produce.
Miners at various points in the Ruhr are reporting that they are not able to work on the present ration, and also complaining that their families are suffering terribly from lack of nourishment.
MURDERERS ON CANADIAN TRIP
(Continued from First Page)
murderers at the executive mansion, one a gardener and the other a housekeeper. We never have any trouble with these men. We treat them as ourselves and in this way many such men have risen from the depths."
GUESSING FAIR
Warden Thomas stated that last night the party held a guessing contest for the people of Coboconk to determine the two murderers and try to pick them out of the party.
"They picked the superintendent of the machine shop, Homer Price, and my own son, Don Thomas," he said.
The party is composed of Gov. Donahay and his six sons, Warden Preston Thomas and his son Don, and the two murderer servants as they have been called, Earl Jennings and C. Zippiana. They are traveling in three motor cars. They expect to spend three weeks in the Coboconk district fishing and boating.
RUMORS OF NEW HEIR TO WILHELM'S REALM
[RECEIVED BY CABLE-EXCLUSIVE DISPATCH]
BERLIN, Aug. 1.—It is rumored consistently in German monarchistic circles that a son was born to the ex-Kaiser and the new Kaiserin in May, last, and is at present in the Kaiserin's Silesian castle at Sabor, thus explaining the Kaiserin's frequent trips between Doorn and Sabor during the past six weeks.

URGENT ASSISTANT FOR PRESIDENT
Executive is Proposed
More Than One-Man Job
Running Administration
Tremendous Routine Taxes
Presidential Vigors
WASHINGTON, Aug. 1.—Reports from San Francisco indicate the extent to which fatigue has entered as a disturbing factor in the illness of President Harding have revived with increased vigor the proposal for the creation of the post of assistant president and defining his duties and salary should be offered at the session of Congress which will convene in December.
FATAL CRASH OF AUTO IS HELD TO BE ACCIDENTAL
BREA, Aug. 1.—An inquest was conducted at McAuley Funeral Chapel in Fullerton this afternoon to place the blame of the auto accident resulting in the death of David Jamison of Brea, who died last night at Anaheim Sanatorium. The coroner's jury returned a verdict of accidental death.
SAPS VIGOR
Veteran White House attaches, realizing that Theodore Roosevelt never regained his full vigor after completing his Presidential service, and that Woodrow Wilson never lives a broken man as a result of his arduous duties in the Presidency, while now President Harding lies ill with his condition aggravated by the countess hours he has been compelled to devote to routine matters, do not hesitate to express the opinion that Congress should be called upon to legislate for an assistant president, if in future years the commission as Chief Executive is not to constitute, at the same time, what in effect would be a death warrant.
FUNERAL PLANNED
The funeral of the late David Jamison, who died last night following an auto accident, will be held at 10 o'clock tomorrow morning at the funeral home of Long Beach, where he was carried to a local hospital last night following an auto accident. The funeral will be held at 10 o'clock tomorrow morning at the funeral home of Long Beach, where he was carried to a local hospital last night following an auto accident.

FRANCE DEFIES SPAIN IN FI

French to Meet Win Anzac-Jap Tangle

La Coste is Main Ho Davis Cup Seeker

Flaqueur Loses to Blanc Deciding Match

(BY CABLE AND ASSOCIATED PRESS)

DEAUVILLE, Aug. 3.—French tennis players, by securing their defeat of the United States team at the Australian-Japan Davis Cup tournament, earned the right to travel to the United States to meet the United States team.

Rene La Coste, who will represent France, said that he expects to win the Davis Cup from the United States, who are the main favorites.

The French team, led by La Coste, being the favorite, was the main favorite in the Davis Cup since Europe this year. Their victory over the United States was the turning point in the Davis Cup.

FRANCE'S BEST BET

The schoolboy also won France's best bet in America with Henri Cochet, who was last year, and Andre Mercurio practically out of it. He came up to Jean Borotra and Jacques Brugnon to carry the real French Davis Cup ambitions.

France affairs make it impossible for Francois Blanchy, the champion, to make the trip.

It was by superior play that Blanchy put the Spanish on France's victory path in his match with Flaqueur this afternoon by the score—6-2, 3-6 and 6-1, giving France matches to two.

The third played erratically and defeated himself by hitting ill and hitting out.

Flaqueur, apparently irresponsible responsibility of carrying the burden of the Spanish cup hopes made a poor start in the first set, scoring only one point to Blanchy's twenty.

The Spaniard's proposed trip to the United States was the turning point in the Davis Cup.

DEAUVILLE, Aug. 1.—The French tennis players, by convincing their defeat of Spain in the Australian-Japan final of the Davis Cup tournament, have earned the right to travel to the United States to meet the winner of the Australian-Japan final of the Davis Cup tournament.

The French team, headed by La Costa, who will be one of the mainstays of the Davis Cup team, is the only team to have won the Davis Cup singles in the United States.

GIBBONS TO BOX CHAMP HERE, PLAN

Sanction of Army for Fifteen-Round Battle at Fort MacArthur Sought

Section of Maj. Gen. Morton, commander of the Ninth Corps Area, United States Army, of a Jack Dempsey-Tommy Gibbons rematch at Ft. MacArthur, Los Angeles Harbor, will be sought tomorrow by A. E. Sanfeller, Hollywood sportsman, who will leave for San Francisco today, accompanied by Col. J. A. Haggins, retired.

The fight, a fifteen round affair, would be staged as a benefit for the disabled veterans and a guarantee of \$40,000, it is said, will be put in escrow for the latter the instant contracts are signed.

An additional percentage of the gate receipts also are promised. Southern California disabled veterans are facing a deficit said to amount to \$70,000.

According to the promoters, Gibbons already has consented to such a match, and Jack Kearns, Dempsey's manager, is open to any proposition.

It is planned to erect a stadium having a capacity of 55,000.

Sentiment of Los Angeles Harbor civic bodies obtained during the early part of this week revealed no opposition to the match, and this, it is expected, may play an important part in any decision Gen. Morton may make.

The schoolboy also will be France's best bet in America, and Henri Cochet, who played there last year, and Andrew Gault, who played in the United States, are also expected to be in the French Davis Cup team.

The French team, headed by La Costa, who will be one of the mainstays of the Davis Cup team, is the only team to have won the Davis Cup singles in the United States.

OUTCLASSES A LARGE FIELD

Shoots Difficult Course in Par Figures

Is Four Strokes Below Rest of Entrants

First Round Matches Are Set for Today

(BY CHARLES WEST)

Negotiating the tricky course in par figures, Fred Wright, Jr., won the medal round of the California Country Club's invitational tournament with a 73 for the qualifying round yesterday afternoon. Wright was just two strokes over the amateur record for the California links, and led the rest of the 175 entrants in the tournament by four strokes.

Ed. R. Hurst was runner-up for low gross honors, shooting a 77, while S. Van Houten and E. H. Chapin tied for the low net trophy. Van Houten making 81-18-63, while Chapin's score was 78-18-63.

Wright didn't play his best brand of golf, as he threw away strokes enough by mediocre playing to break the existing course record, and he was just cheated out of a 72 on the eighteenth green when his putt stuck on the edge of the cup. Wright went out in 36, one under par, and came back one over par with a 37. His score follows:

OUT
Par 435 434 435-37
Wright 435 434 434-36

Ed. R. Hurst 435 434 434-37

BRITISHERS LEADING IN BOATRACES

American Six-Meter Yachts Defeated in First Round Event

(BY CABLE AND ASSOCIATED PRESS)

Aug. 1.—English yachts today took the lead over the American six-meter boats in the first round of the races to be sailed for the British-American cup. The Englishmen made 23 points to 13 points won by the Americans. Five races are yet to be sailed.

Large crowds from the shore and abroad watched the all descriptions watched the little craft as they traversed the fifteen-mile course.

Colin III of the British, owned by F. J. Stephens, crossed the finish line with Reg. also British and owned by Norman C. Neill, second, and the American entrant, Lea, owned by J. F. Bernheim, third.

Seattle British; Celtic, American; Capelle, British; Hawk, American and Ingomar, American, finished in the order named. The race was sailed in a strong to fresh western breeze with all the boats under reefed sails.

Colin III of the British, owned by F. J. Stephens, crossed the finish line with Reg. also British and owned by Norman C. Neill, second, and the American entrant, Lea, owned by J. F. Bernheim, third.

Seattle British; Celtic, American; Capelle, British; Hawk, American and Ingomar, American, finished in the order named. The race was sailed in a strong to fresh western breeze with all the boats under reefed sails.

GOLF GETS ROUGH
(EXCLUSIVE DISPATCH)
NEW YORK, Aug. 1.—While swinging a golf club at Sleepy Hollow Country Club last week, Samuel F. Strait, stock broker, felt something snap in his spinal column. Today he lies seriously ill in a hospital with his back in a plaster cast. An X-ray revealed that a small particle of bone had been chipped off the spine.

OPEN SHOP HAS MOST BUILDING

Fewer Families Get Homes Where Unions Control

Government Report Shows Success of System

National Housing Shortage Being Eliminated

(EXCLUSIVE DISPATCH.) NEW YORK, Aug. 1.—Thirty-seven per cent more American families were provided with homes last year in cities where there was freedom from labor union building rules, as compared with cities where unions dominated construction, says a statement issued today by Noel Sargent, manager open-shop department, National Association of Manufacturers.

"Government statistics just issued clearly demonstrate the success of the open shop in hastening the elimination of nation-wide residential housing shortage."

MANY CITIES STUDIED

"An analysis of sixty-three cities with a combined population of 22,761,496 and each having over 25,000,000 of construction in 1922 shows that elimination of closed-shop rules has provided homes for more families. In twenty-seven

MONTANA SHIVERING

(BY A. P. NIGHT WIRE)

BUTTE (Mont.) Aug. 1.—With the mercury hanging the forty degree mark, the lowest temperature ever recorded here on August 1, Butte residents took their overcoats from the closets and prepared today for the return of winter.

A raw north-east wind made the cold seem intense, even though the cold was experienced temperature below the forty degree mark fifteen times during August during the past twenty-five years.

YACHT IS SIGHTED NORTH OF HONOLULU

(BY CABLE AND ASSOCIATED PRESS) HONOLULU, Aug. 1.—A wireless message was received here from the freighter Montebello that it had sighted a yacht at 3 o'clock this morning at north latitude 22.15, west longitude 155.34. It is believed to be one of the yachts racing from Santa Barbara to Honolulu. It was announced this afternoon that naval aviators left at 2 p.m. in an effort to identify the yacht. The location given the vessel would place it approximately 125 miles north and slightly west of the city of Honolulu.

BROOM CORN HELD (EXCLUSIVE DISPATCH.) BROWNSVILLE (Tex.) Aug. 1.—Approximately 10,000 tons of high-grade broom corn will be produced in the lower Rio Grande Valley this season and producers are planning to hold it for higher prices. They have been offered \$250 a ton, but their expectations run from \$300 to \$450 a ton.

FEDERAL POST IN NEW HANDS

Arizona Marshalship Goes to George A. Mauk

Predecessor Removed for Unknown Cause

Petitions to Spare Life of Convict Pour In

(EXCLUSIVE DISPATCH.) PHOENIX, Aug. 1.—George A. Mauk today assumes office as United States Marshal for the Arizona district, succeeding Thomas J. Sparks, removed. The reason for the removal still is unknown, as a late inspection of the office is said to have found it in good shape. It is understood that Marshal Sparks and Senator Cameron have been "at odds" for months over the personnel of the local office, particularly with reference to the retention by Sparks of Chief Deputy Don Willette and Finance Clerk Fred Hudson, both Republicans, appointed in the Overlock administration under Taft, but retained all through the Wilson administration under Marshal Joe Dillon. The retiring marshal is reported to have experienced difficulty in obtaining competent deputies at the

WEATHER MAN IS ASSAILED

Japanese Bureau Chief Tells Why His Reports Are Always Wrong

(BY CABLE—EXCLUSIVE DISPATCH) TOKIO, Aug. 1.—The inaccuracy of weather reports has been drawing the sarcasm and the ire of the public on the weather man, who has just issued an explanation of why the weather is so independent.

"No instrument has yet been invented that can give an accurate weather forecast," says Dr. Fujimura, head of the Meteorological Bureau, when quizzed as to why the very opposite is the result to what the Weather Bureau foretells. "That is why when we say fair it may become cloudy, and even rain."

emolument set by the Department of Justice. He will return to his former occupation of mining. Mr. Mauk for years past has operated a chain of theaters in Phoenix and nearby cities. He is a pioneer Republican, active in the party organization and has been considered for several important political posts. The appointment went to him without application.

After remaining under a Republican administration for more than two years, Scott White is to be displaced by a Republican in the office of receiver of the Phoenix land office. His successor, named by Senator Cameron, is to be Sid Farrell, former postmaster at Grand Canyon, where the Senator has large interests. Mr. White is an old friend of former Secretary of the Interior Fall, who became his chief on the advent of the Harding administration.

CLEMENCY SOUGHT

Apparently based mainly on the ground that the prisoner is a Mexican citizen and that the comity of nations might be disturbed by his execution, petitions have been pouring in on Gov. Hunt seeking commutation of the death sentence that has been twice passed on Manuel Martinez, murderer of the postmaster and postmaster's wife at Ruby, Ariz. Special stress is placed on the assertion that Martinez was passed across the international line from Mexico without proper process of extradition. His attorney is Carlos V. Anaya, prominent in the Spanish-American alliance, a fraternal order with headquarters in Los Angeles. A dozen judges of the order already have petitioned the State authorities for commutation and it is expected that all the 125 lodges will take similar action. The same attorney who obtained an order of habeas corpus from the final county Superior Court on the eve of the date set for the hanging of Martinez now is reported to be working for a writ of certiorari from the United States Supreme Court. Chairman L. B. Orm of the State Board of Pardons and Paroles states that his board has no present intention of reopening the matter. Execution is set for the 10th inst.

CHINESE ARE LOSING HOMES BY THOUSANDS

SEEK EMERGENCY LEGISLATION TO REMEDY EVIL AT HONGKONG

(BY CABLE—EXCLUSIVE DISPATCH) HONGKONG, Aug. 1.—Thousands of Chinese householders in this British colony are in distress at the prospect of being turned out of houses and homes. The supply of houses is short of the demand and the government has been compelled to control rents and to prevent landlords of controlled houses ousting tenants.

In order to encourage building, however, new property does not come within the scope of the control enactment, and wealthy Chinese syndicates are buying up old property, pulling it down and erecting new houses for which they can charge any rental they choose. During the month of May alone permission was given to pull down property housing some 7000 tenants, who do not know where to turn for new accommodation. Efforts are being made to get the government to introduce further emergency legislation preventing the demolition of occupied property until enough new houses are available to accommodate displaced householders.

LIGHTER QUARANTINE SOUGHT BY TAMPICO

(EXCLUSIVE DISPATCH.) TAMPICO (Mex.) Aug. 1.—The American Chamber of Commerce here, which has repeatedly protested to Washington against the strict yellow fever quarantine imposed upon this port, has met with little or no success. Despite the fact that the Yellow Fever Commission, a Rockefeller Foundation concern, has repeatedly stated that there is no yellow fever in any part of Mexico, the only modification of the quarantine the Chamber can get is the assurance that full traveling time will be allowed from Tampico to the border providing the trains have been fumigated after leaving Tampico. Formerly a traveler was forced to spend six days in Monterey before proceeding to Laredo, Tex. This made eight days for a trip that ordinarily consumes but twenty-eight hours.

PEST POISON IN PROSPECT

(EXCLUSIVE DISPATCH.) ATLANTA (Ga.) Aug. 1.—A plentiful supply of calcium arsenate at a cost not to exceed 10 cents a pound may be made possible for Georgia farmers through the erection of a plant for the manufacture of this boll weevil poison, says J. J. Brown, State Commissioner of Agriculture. The plan is to secure ore from mines of the National Gold Arsenic Corporation, in Washington, transport it to Georgia, an arsenic extract the arsenic.

MEXICO GETS PHONE LINE

(EXCLUSIVE DISPATCH.) CHIHUAHUA CITY (Mex.) Aug. 1.—A long-distance telephone line between this city and Ciudad Juarez, opposite El Paso, has just been opened to public service. The line is 228 miles long. It is the intention to establish connection later with the American telephone service at El Paso.

Travel Articles That Tell Facts

Details that escape the average writer are one of the charms of Frank G. Carpenter's travel articles.—Every week in the SUNDAY TIMES Illustrated Magazine.

Glendale

In the heart of Metropolitan Los Angeles

FORWARD-MARCHING Glendale must GROW!—bigger—better—richer—with ever increasing momentum, as surely as the great tide of American population swings westward.

Ceaseless streams of prosperous people seeking better homes and happier lives flow into the great metropolitan area of Los Angeles month after month and year after year, bringing money, energy and opportunity—and Glendale, like a WEDGE OF GOLD piercing nearly to the center of this great metropolitan area, presents, we believe the GREATEST OPPORTUNITY OF ALL.

Study the map,—consider the value making location of this wonderful city,—at the focal point of rail and highway serving the great growing communities of Pasadena and Hollywood,—but CLOSER to Los Angeles center than either!—Glendale holds the KEY POSITION in the growth of a mighty city.

Let facts alone tell the story.

Population in 1920—13,356. Population now over 42,000 with all the increasing values that such a wild-fire growth brings, enriching directly every citizen and property holder in Glendale. Note the actual figures of the sale and resale of the charming Glendale home shown on the right, not an extreme case at all, only one of hundreds equally profitable.

And this marvelous growth is just beginning.—TODAY Glendale holds greater opportunities for happiness and profit than ever before.

Facts, not guesses will bring you sooner or later to Glendale. Call on our secretary at once for reliable information or if you can't call, write for the complete story of Glendale in a new booklet just off the press.

Glendale Chamber of Commerce

The Fastest Growing City in America

This Glendale home in a strictly residence district was purchased first for \$22,500 and 24 months later it sold for \$21,000, making a monthly profit of \$354 for two years. These typical figures and many others even more startling are on file at the Chamber of Commerce for your inspection.

Glendale Chamber of Commerce.

I want to know why Glendale is NOW the best place in Southern California for me to live and invest.

INSTALLMENT DIVORCE IS FOUND NOT ALWAYS BEST

New Yorker Discovers Drawbacks
to Plan; News of the Day in
Nation's Metropolis

BY RAYMOND G. CARROLL

(EXCLUSIVE DISPATCH)

(Copyright, 1923, Public Ledger.)

NEW YORK, Aug. 1.—Divorce on the installment plan has its advantages and then again its drawbacks, it has been discovered by a New York business man. The original arrangement was for his wife to receive \$50,000 in five installments of \$10,000 each. Notes were given to cover the payments at stated intervals. Then the "exiting" wife sailed for Paris, where she received her first payment.

But the French process of law was far more rapid than she had been led to believe, and upon ascertaining that she would be a "free woman" before the second \$10,000 installment was paid, she hurriedly returned to New York and demanded a new compact.

Hence the drafting of a new arrangement by which the installments ceased to be fixed at stated intervals, but are paid in full upon the granting of the final decree by the French court.

Armed with the new document the wife re-sailed this week for Paris to take up her new life as a law where she left off, now prepared to see it through to the bitter end. A poor weak woman had to look out for herself these days, she told a friend, "and I am a business woman; no pay, no divorce."

Capt. Patrick Irving O'Hay, who some months ago was presented with a permanent, nonrevocable ticket entitling him to enter any of the 280 restaurants in the Society of Restaurateurs and eat his fill for nothing, has departed from the metropolis. He is the only man known to have actually been "eaten" out of the country.

"The United States leads the world in aviation performance and engineering progress. While the European nations and particularly the major belligerents in the war with Germany have concentrated upon military establishments and upon subsidized civilian aviation, the United States, with far less expenditure and lacking such fundamental requirements as air law, has been advancing in the field of aviation, and in the process of speeding up commerce and industry."

MIDDLE WEST NEWS IN BRIEF

(EXCLUSIVE DISPATCH)

DETROIT, Aug. 1.—Following a meeting behind closed doors in Mayor Dornan's office yesterday, it was announced that the Detroit street railway men will be adjusted by arbitration, thereby eliminating immediate chances of a strike, leaders of the union agreeing that recognition of the union by the city would be given when arbitration is resumed.

Open season on drunken automobile drivers was declared by Judge Charles L. Barrett in Recorder's Court yesterday when he sent seven men to the house of correction without the option of paying fines. Their sentences ranged from thirty to ninety days.

Max Malenewski, 58 years of age, was found dead yesterday in a pasture on his farm at Carsonville. His neck was broken. He had gone to the field to get a bull and the animal attacked him with fatal results. His clothing was torn completely from his body, which was trampled almost beyond recognition.

Fred Wyman, 63 years old, living southwest of Sturgis, killed himself yesterday by firing a bullet into his left breast. He was a wealthy farmer, and had no business or domestic troubles as far as is known. A nervous breakdown is blamed for the act.

ST. PAUL, Aug. 1.—The Farmers' State Bank of St. Bonifacius, which has deposits of \$100,000, was reorganized yesterday by the State Banking Department because of losses suffered on collateral, depleted reserve and failure of stockholders to rally and order a 100 per cent assessment. A. Veigel, State Superintendent of Banks, announced.

Already this year contracts have been let for 11.5 miles of paving within the city, to cost \$1,995,893, to be completed before snow flies. The city engineer, within the next four weeks bids will be advertised for another 14.5 miles of paving, to cost \$1,944,000. This makes a total paving program of twenty-six miles to cost \$2,939,893, largely to be finished this year.

MILWAUKEE, Aug. 1.—The 3-month-old daughter of Mr. and Mrs. Charles Adams of Holly is dead from scalding by water from an automobile radiator, when the parents car crashed head-on into another car.

The 18-month-old daughter of Mr. and Mrs. Chester Welch of Lodi, Wis., died yesterday when she slipped from a couch and was unable to free her foot. Her parents found the baby hanging from the couch and called for help. The child was given her first breath of life when she was returned to the house after doing the milking and other chores.

INDIANAPOLIS, Aug. 1.—After eight years of blindness, little Lillian Palen, daughter of Mr. and Mrs. Charles Palen, formerly of LaPorte is able to see. "I can see," cried the child joyfully at a hospital in Indianapolis when the bandages were removed from her eyes. Born blind eight years ago, the child was given her sight through an operation.

Mayor Shank yesterday launched a campaign against what he termed "war time" prices on retail foodstuffs while farmers receive constantly decreasing prices for their products. He called for a "war time" price on retail foodstuffs while farmers receive constantly decreasing prices for their products.

SHIP LIQUOR IS UP IN COMMONS

American Note to Spain in
1857 Dragged OutYank Vessel Was Ordered to
Leave Havana PortWashington Officials Fail to
See Parallel

(BY CABLE-EXCLUSIVE DISPATCH)

LONDON, Aug. 1.—Sir William

Dalrymple asked in the House of

Commons today whether the at-

tention of the government had

been called in connection with

the liquor controversy with the

United States to a dispatch for-

warded some years ago by the

United States to Spain, which

while admitting the legal right of

every nation to prescribe condi-

tions under which foreign ships

might enter its ports, pointed out

that these conditions must not

be in violation of the well-known

and long-established usages regu-

lating commercial intercourse be-

tween civilized nations, which could

not be violated without giving just

cause for complaint.

UNDER CONSIDERATION

Mr. Ronald McNeill, Under-

secretary for Foreign Affairs, replied

to the question as a question of

the attention of the United States

to this note was now under con-

sideration.

Dr. A. Chapple, Liberal, asked

if the attention of the govern-

ment had been drawn to the

fact that a Barmen ship has twice

been sent to the United States and

that the United States has twice

enforced its own laws.

Mr. McNeill replied that he had

seen the circular and that the

whole subject was now engaging

the attention of the government.

This refers to the circular issued

by the Barmen ship which has been

bankrupt, inviting the public to

subscribe for shares in a run-

ning advance.

RECORDS BOUND

(BY A. P. NIGHT WIRE)

WASHINGTON, Aug. 1.—Search

of State Department records pro-

duced today an ancient copy of

instructions issued October 24, 1857,

to the American Minister at Ma-

drid, directing him to call to the

attention of the Spanish govern-

ment the case of the Crescent City,

an American ship carrying mail be-

tween New York, New Orleans and

Havana, which had been denied the

right of landing at Havana and or-

dered out of the harbor in the face

of a threatening storm in 1857.

The reason given by the Spanish

authorities in Cuba for their action

was that the ship was not a mail

ship, but a private trader.

The instructions continue with

the language referred to today in

the House of Commons. It read as

follows:

"The President directs that you

lose no time in communicating

the instructions to the Spanish gov-

ernment and in expressing his sur-

prise and regret that they should

have been so long in coming.

STATE CUSTOMS

(BY A. P. NIGHT WIRE)

WASHINGTON, Aug. 1.—An-

drew Mellon, American Secretary

of the Treasury, is financially

backing the Detroit-Windsor

bridge, it was learned today by a

letter coupling Mr. Mellon's

name with the project was issued

to shareholders by the American

Transit Company.

Mr. Mellon has been mentioned

several times as being an inter-

ested party, but today's letter con-

tained the definite announcement.

In its letter the company stated

that it was negotiating with the

McClintic-Marshall Company of

Pittsburgh for financing of the

project, and that a definite agree-

ment awaited only the return of

Mr. Mellon from Europe about

September 1.

IMMIGRATION MOVE

OF SHIP PROHIBITED

(BY A. P. NIGHT WIRE)

NEW YORK, Aug. 1.—Italian

immigration officials at Ellis Is-

land today refused to permit

Italian officials to comply with

the order of the Atlantic Steamship

Conference diverting from this

port to Philadelphia the America,

bringing 248 passengers, including

immigrants, into this country. The

diversion had been ordered as

part of the conference's program

to reduce immigration congestion

in this port.

SUGAR TAKES DROP

AT SAN FRANCISCO

(BY A. P. NIGHT WIRE)

SAN FRANCISCO, Aug. 1.—Re-

ductions of 25 cents in the price

per 100 pounds of refined cane

sugar, effective today, were an-

nounced by local refiners. The

new price is \$3.25. The reduc-

tions followed a decline in the

price of Cuban raw sugar on the

New York market, according to re-

finers here. They denote a drop

in the San Francisco market of 75

cents since Monday.

OUT FOR SENATOR

(BY A. P. NIGHT WIRE)

PORTLAND, (Or.) Aug. 1.—

George H. Munroe, of Clatsop

county, who recently re-

turned as president of the State

Farm Bureau, today issued a for-

mal announcement of his candi-

dacy for the Democratic nomina-

tion for United States Senator.

CUBA PREDICTS FALL OF CROWDER REGIME

**FRENCH EDITOR HITS
AMERICAN VISITORS**

**TELLS TOURISTS NOT TO SHOW
AVERSION TO NEGROES IN
PUBLIC PLACES**

(BY CABLE AND ASSOCIATED PRESS)
PARIS, Aug. 1.—The Foreign
Office's warning regarding the be-
havior of tourists who had man-

feared aversion to being thrown in-
 to company in public places with
 colored men from the French
 colonies was repeated in an edi-
 torial in the semi-official Temps to-
 day with explanatory comment.
 The editorial makes special refer-
 ence to "those very rare among
 our American guests who had for-
 gotten that the French Republic
 makes no distinctions between the
 inhabitants of its immense empire
 whatever their race or color."
 "They will undoubtedly hence-
 forth," adds the article "be in
 them nothing but Frenchmen like
 other Frenchmen, and will recall
 that their own country, like ours,
 has benefited from the value of
 co-operation of black troops."

The editorial reiterates that it was only a small number of visiting foreign tourists who were affected by the note, "which was drawn up with the tact and moderation to be expected from officials connected with the Quai d'Orsay."

It concludes by pointing out that Frenchmen willingly submit to the rigid regulations when in the United States, and that "our foreign friends will be willingly subjected to regulation not imposed by law, but by our character and habits."

**WHEAT SPECTACULAR JUMP
WHEN ESTIMATE SHOWS
CROP DECLINE**

(BY A P. NIGHT WIRE.)

NEW YORK, Aug. 1. — The whole cotton trade was thrown into excitement today by the report of the Agricultural Bureau, announcing a condition of only 57.2 for the cotton crop, representing a decline of 2.7 points from the previous report.

It was so far under even the lowest of private estimates that the market immediately jumped skyward advancing to 22.60 for the cash crop, and 22.65 for the futures.

Deposits required.

about 132 to 140 points above the previous close.

The covering of short accounts was on a big scale for the trade and fully expected a report around 9. While many traders were inclined to be skeptical over the weak condition shown in the business statement, the fact that the crop has undoubtedly deteriorated in the last week, as shown by the weekly weather and crop report, detracted a good deal of buying interest outside accounts and the market closed 115 to 131 points above the previous night.

NEW CABLE AND ASSOCIATED PRESS; THE CAIRO (Egypt) Aug. 1.—It is expected that the Egyptian government will soon be able to raise the price of cotton.

FOR ITCHING TORTURE

has been decided to enter the competitive market as a purchaser. This step is to be taken with a view to maintaining prices.

SHAM-AR BATTLE IS FATAL TO TWO

(BY CABLE-EXCLUSIVE DISPATCH.)
LIONS, AUG. 1.—A sham battle, 2,000 meters above the flying school at Lyons, cost the lives to two of two aviators who had survived all the real battles of the war. Lieut. Gondard, demonstrating an attack on another airplane, lost control and crashed into his burning plane.

FOR ITCHING TORTURE

Use Antiseptic Liquid Zemo

There is one remedy that seldom fails to stop itching torture and relieve skin irritation, and that makes the skin soft, clear and healthy.

Any druggist can supply you with Zemo, which generally overcomes skin diseases, Eczema, Itch, Pimples, etc. It is a safe, antiseptic remedy that causes gray away to Zemo. Frequent, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and de-

Famous Austrian Surgeon Restored by Gland Treatment

Dr. Lorenz, famous Austrian surgeon, according to a recent press dispatch, has submitted himself to glandular treatment. This treatment, according to the doctor's own statement, has restored him to the health and vigor of his earlier days, and he is highly enthusiastic about this new branch of medical science.

Thousands of men and women who are lacking in health and energy, are taking advantage of science's most recent discovery and are using Glandogen, a highly concentrated glandular tonic, in convenient tablet form, prepared from the glands of healthy young animals. Glandogen has had remarkable success in the treatment of run-down, nervous individuals. It is obtainable at the Henderson-Chambers Drug Co., 3rd and Main Streets, Chambers Drug Co., 1st and Broadway, Blaney-Chambers Drug Co., 5th and Los Angeles, in Long Beach at the Akford Drug Co., 211 Pine Avenue.

Poor Sight YOUR EYES EXAMINED GLASSES \$2.90 COMPLETE

An examination of your eyes, a pair of spectacles, in a 15 minute complete for \$2.90. One week only.

Gold or shell frames, toric, fancy shapes and double vision glasses correspondingly low.

If many people think as soon as their eyes trouble them it is a sign that they will have to wear glasses, this is not so. Many are wearing glasses that never did need them or never did to the extent they are now.

If it is good, careful, painstaking, conscientious work you want, I'll give it to you. It's the only kind that counts and it lasts. We are living in an age of specialization—when the best is called for.

I always try to be reasonable in my charges. No "drops" used. Some of our neighbors are wearing glasses I sized.

JAPAN SEEKING FASTER SHIPS

Vessels of Other Nations
Make Better Time

Loss of Trade is Seen With
Present Craft

Subsidy From Government
Now Probable

(BY CABLE-EXCLUSIVE DISPATCH)
TOKIO, Aug. 1.—The recent record made by the Canadian Pacific Steamship Company's liner Empress of Canada in crossing the Pacific in eight days, ten hours and fifty-three minutes has made Japanese shipping circles do some hard thinking. In so far as tonnage is concerned, Japan is the third largest carrier country in the world, but the actual influence of shipping interests in these days depends more largely on the number of fast steamers each country possesses than on the amount of tonnage in the aggregate. Japan has only sixteen vessels of more than 5000 tons and with a speed of more than fifteen nautical miles. The British Empire leads in this line with 180 such vessels, while America has forty-eight, France twenty-four and Italy twenty. While Canadian Pacific Steamship vessels on an average do the journey across the Pacific in ten days and the Admiral line boats take eleven days, Nippon Yusen Kaisha vessels and Osaka Shosen Kaisha vessels take fourteen and sixteen days respectively to cover the same distance. Most of the Japanese steamers were built hurriedly during the war and leave much to be desired. The Japanese government and shipping circles believe that the construction of fast vessels is imperative if Japan is to make an effort to obtain a fair portion of the trade of the Pacific, and steps are now being worked out for building several 17,000-ton liners, with a speed of at least eighteen knots, to be put on the Pacific trade routes. The Nippon Yusen Kaisha regards such vessels as indispensable, otherwise, the company thinks it would be better to withdraw its fleet from the Pacific service and put the vessels on other routes where competition is not so acute. Subsidies have been asked and the government authorities seem willing to accommodate shipping men in Japan with funds for the construction of larger and faster vessels which must ply on the Pacific only.

LA FOLLETTE TO VISIT CAPITAL OF RADICALS

SAYS HE'LL BE READY FOR
ALL COMERS WHEN HE
RETURNS

(BY A. P. NIGHT WIRE)
NEW YORK, Aug. 1.—Sailing on the George Washington today with other Senators to attend the Inter-Allied Parliamentary Union at Geneva, Senator La Follette of Wisconsin declared he was "in the pink" of condition and feeling like a fighting cock but declined to discuss problems of state. "I'm going over to Europe to rest a bit and taper off my training," the Senator said. "Then when I get back I'll be ready for all comers."

"In the political ring?" he was asked, but he refused to be specific.

Mr. La Follette announced he would make an intensive study of conditions abroad—in the Ruhr, in Russia, Italy and other continental nations, as well as in Great Britain.

Senator Kenneth McKellar of Tennessee, announced he would visit the Ruhr, Rome, Paris, Berlin and London.

"As for the World Court, I was for it as it was outlined in President Harding's speech last February," he announced. "But I do not favor the self-perpetuating court proposed by the President at St. Louis."

Mr. Harrington and Mandell were arrested last Friday after the directors of the company surrendered the bank to the State Bank Commissioner and closed its doors, nearly one-third of its entire resources having been stolen in the conspiracy.

AMERICAN PARTY
IS ENTERTAINED

(BY A. P. DAY WIRE)
MANAGUA (Nicaragua) Aug. 1.

Seventy-five persons from the United States transport Chaumont came here yesterday. The Nicaraguan government entertained the party of American Congressmen and naval officers. A Presidential reception attended by 800 guests was held at night. Before the Chaumont sailed for San Pedro, Cal., Maj. Gen. Neville inspected the marine detachment here.

BLUE SUNDAY MOVE FOUGHT

(EXCLUSIVE DISPATCH)
GLENDALE (Ariz.) Aug. 1.—The Ministerial Association of Glendale has filed a petition with the City Council asking for Sunday closing of motion-picture theaters. A show man has countered by presentation of a petition with 203 signatures supporting him. He also says that the association petition is illegal, with names obtained from a withdrawn petition. Protest against the proposed ordinance also has been filed with the City Council.

"But what do you live on?" asked Jill. "I know you are going to be a millionaire next Tuesday week, but how are you getting along in the meantime?"

"Well, as regards actual living expenses, I have managed by a shrewd business stroke to acquire a small but sufficient income. I live in a boarding-house—true—but I contrive to keep the wolf away from its door—which, by the way, badly needs a lick of paint. Have you ever heard of Nervino?"

"I don't think so. It sounds like a patent medicine."

"It is a patent medicine," Uncle Chris coughed. "I stopped and looked anxiously at her. 'Jill, you're looking pale, my dear.'"

"Am I? We had rather a tiring rehearsal," said Uncle Chris seriously. "That it is only that? Are you sure that your vitality has not become generally lowered by the fierce rush of metropolitan life? Are you aware of the things that can happen to you if you allow the red corpuscles of your blood to become devalued? I had a friend—"

"Just what I meant to do, my dear. And when I had scared you sufficiently you wouldn't wait for the story of my consumptive

Adding Greater Value to Hamburger's 42d Birthday Sale Comes

The August Sale of Furs

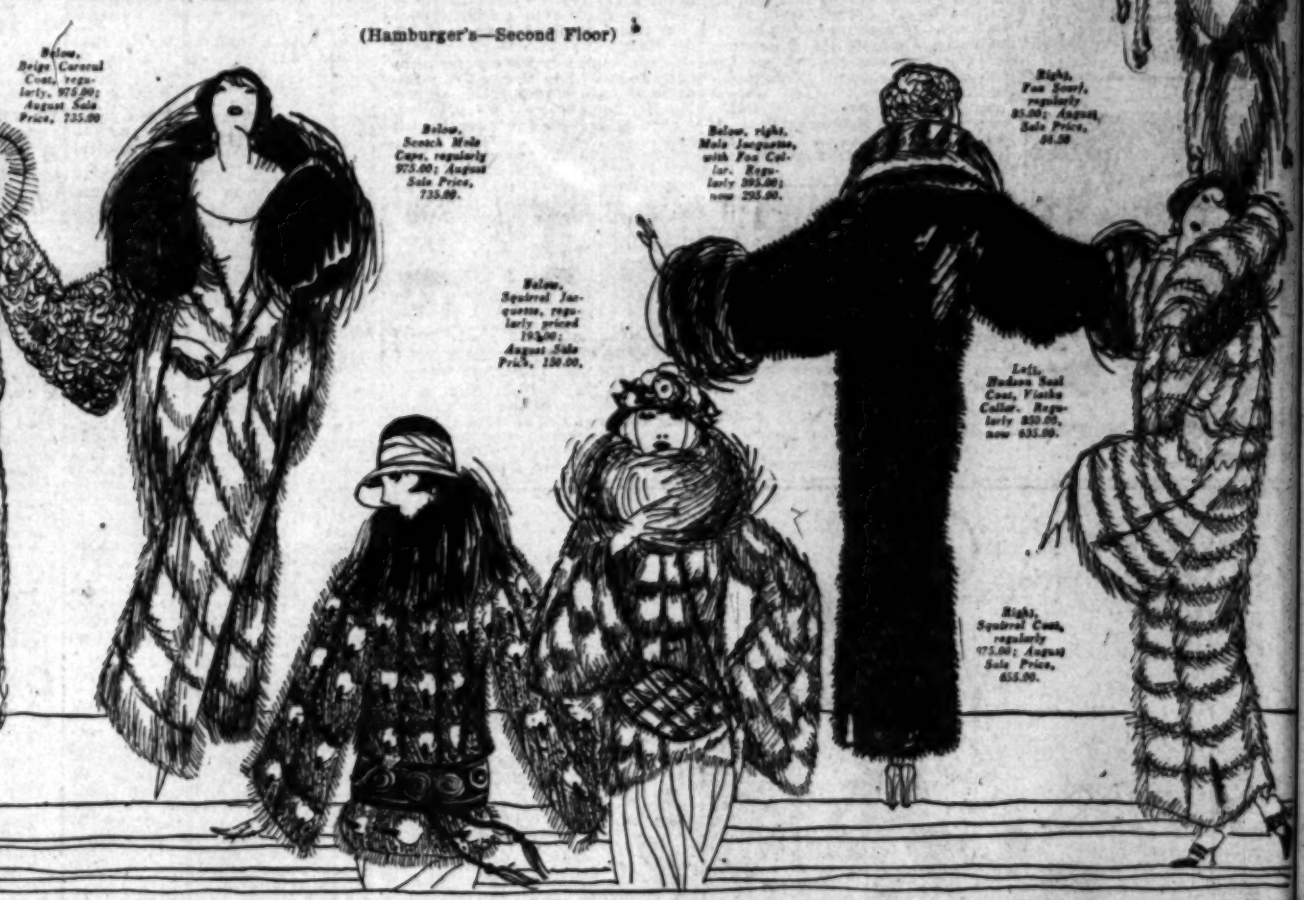

--- Offering a 100,000.00 Stock
of Furs at Savings of 1/4 to 1/3

Hamburger's August Sale of Furs has long been established as one offering exceptional advantages in the selection of choice furs in authentic style. But in no previous sale have we had so much to offer in choice and value as now. The furs are absolutely the finest obtainable. The savings are so great by buying right now that you cannot possibly afford to wait.

Great Luxurious Fur Coats and Other Fur Pieces
That Are Ultra Correct---Furs that Are Priced
Regularly at 25.00 to 2500.00---Now 1/4 to 1/3 Less

Coats, Capes, Wraps, Jaquettes, Throws, Chokers, Stoles and Novelty Pieces are shown in a diversity of distinctive styles, with the variety of pelts greatly enhancing the selection—all pieces of a high standard of quality—and may be purchased with full confidence of giving entire satisfaction.

NOTE THIS: The regular price as well as the sale price will appear on all price tags on these fur pieces. You can see for yourself the tremendous reductions which have been taken.

widow and the orphan that they haven't had time to look after their health. You catch one after dinner, just as he is wondering if he was really wise in taking two helpings of the lobster Newburg, and he is in your hands. I draw my chair up to his and become sympathetic and say that I had precisely the same trouble myself until recently and mention to his dear old friend of mine who died of indigestion, and gradually lead the conversation round to Nervino. I don't force it on them. I don't even ask them to try it. I merely point to myself, rosy with health, and say that I owe everything to it, and the thing is done. They thank me profusely and scribble the name down on their shirt-cuffs. And there you are! I don't suppose," said Uncle Chris philosophically, "that the stuff can do them any actual harm."

They had come to the corner of Forty-first street. Uncle Chris felt in his pocket and produced a key. "If you want to go and take a look at my little nest, you can let yourself in. It's on the twenty-second floor. Don't fail to go out on the roof and look at the view. It's worth seeing. It will give you some idea of the size of the city. A wonderful, amazing city, my dear, full of people who need Nervino. I shall go on and drop in at the club for half an hour. They have given me a fortnight's card at the Avenue. Capital place. Here's the key."

Jill turned down Forty-first street, and came to a mammoth structure of steel and stone which dwarfed the modest brown houses beside it into z thingsness. It was curious to think of a private apartment building on the summit of this mountain. She went in, and the elevator shot her giddily up to the twenty-second floor. She found herself facing a short flight of stone steps, ending in a door. She mounted the steps, tried the key, and turning it, entered a hallway. Proceeding down the passage, she reached a sitting-room. It was a small room, but furnished with a solid comfort which soothed her. For the first time since she had arrived in New York, she had the sense of being miles away from the noise and bustle of the city. There was a complete and restful silence. She was alone in a nest of books and deep chairs, on which a large grandfather-clock looked down, with that wide-faced benevolence peculiar to its kind. So peaceful was this eyrie, perched high up above the clamor and rattle the civilization, that every nerve in her body seemed to relax in a delicious content. It was like being in Peter Pan's house in the tree-top.

II

Jill possessed in an unusual degree that instinct for exploration which is implanted in most of us. She was frankly inquisitive, and could never be two minutes in a strange room without making a tour of it and examining its books, pictures and photographs. Almost at once she began to prow.

The mantelpiece was her first objective. It was a fine specimen of the old-fashioned style, with a large clock and a large mirror. There, more than anywhere else, is the character of a proprietor revealed. This mantelpiece was sprinkled with photographs, large, small, framed and unframed, and looking curiously out of place among its large neighbors, was a little snapshot.

It was dark by the mantelpiece. Jill took the photograph to the window, where the fading light could fall on it. Why, she could not have said, but the thing interested her. There was mystery about it. It seemed in itself so insignificant to have the place of honor.

The snapshot had evidently been taken by an amateur, but it was one of those lucky successes which happen at rare intervals to amateur photographers to encourage them to proceed with their hobby. It showed a small girl in a white dress cut short above slim, black legs, standing in the porch of an old house, one hand swinging a sunbonnet, the other patting an Irish terrier which had planted its front paws against her waist and was looking up into her face with a pathetic, engaging grin. The sunlight was evidently strong, for the child's face was puckered in a twisted, though engaging, grin. Jill's first thought was, "What a jolly kid!" And then, with a leap of the heart that seemed to send something big and choking into her throat, she saw that it was a photograph of herself.

With a swooping bound memory raced back over the years. She could feel the hot sun on her face, hear the anxious voice of Freddie Rooke—then it was for the first time the owner of a camera—impulsively to stand just like that because he wouldn't be half a minute only some rotten thing had stuck or something. Then the sharp click, the doubtful assurance of Freddie that he thought it was all right if he hadn't forgotten to shift the film (in which case she might expect to appear in combination with a cow which he had snapped on his way to the house,) and the relieved disappearance of Pat, the terrier, who didn't understand photography.

How many years ago had that been? She could not remember. But Freddie had grown to long-legged manhood, she to an age of discretion and full-length frocks. Pat had died, the old house was inhabited by strangers, and here was the silent record of that sunlit afternoon, 3000 miles away from the English garden in which it had come into existence.

The shadows deepened. The top of the great building eyed away gently, causing the pendulum of the grandfather-clock to knock against the sides of its wooden case. Jill started. The noise, coming after the dead silence, frightened her until she realized what it was. She had a nervous feeling of not being alone. It was as if the shadows held goblins that peered out at the intruder. She darted to the door, standing in the porch of an old house, one hand swinging a sunbonnet, the other patting an Irish terrier which had planted its front paws against her waist and was looking up into her face with a pathetic, engaging grin. BUY OFTEN IN HOME MARKET

Los Angeles Merchant Urges
the Better Way

Market Week Brings Host of
Purchasers Here

Government Report Indicates
Reduced Production

Market success is attending
the Los Angeles annual fall
market week, during which local
wholesalers are offering to buyers
from western cities stocks of
general merchandise valued at
\$4,000,000.

Milton G. Cooper,
head of the Milton G. Cooper
Dry Goods Company, who is a
former president of the National
Wholesale Dry Goods Association
and a director of the Los
Angeles Wholesale Association,
says that the manufacturers and
distributors have had the whole-
hearted support of the best of the
department and retail stores on the
Pacific Coast, and when the
market week closes on Saturday,
it is expected that the greater por-
tion of the supplies of dry goods,
men's furnishings, notions, floor
coverings, and ladies' ready-to-
wear will have been sold.

The market is sponsored by Los
Angeles wholesalers and distribu-
tors of dry goods, and apparel
manufacturers who either have
purchased large stocks of goods
in the East, or have manufactured
them here, and through the es-
tablishment of a central market,
are saving the retailers in the
West both time and money in the
purchase of goods.

The retailers, according to Mr.
Cooper, are not paying prices much
higher than in the past for cotton
goods, and they may even antici-
pate a lower scale for the next
season. In his opinion, the esti-
mated size of the cotton crop
indicates that the mills will have
plenty of the raw material, and in
some instances, this has been
discussed in recent months. The
retailers in the goods market. The
mills will fix their new prices on
the basis of the results of the
August cotton month, and the
buyers will enter the goods market
in September for materials which
will be shipped to them near the
close of the year.

Higher prices for spring woolens
are announced. Mr. Cooper
says, in the increase of 11 per cent
made by the American Woolen
Company over the price of fall
goods. Wholesalers predict a
brisk season in spring woolens for
ladies' wear.

As an example of the practical
value of the market week to re-
tailers, Mr. Cooper cites The
Emporium, in San Francisco, which
purchased substantial bills of
goods from Los Angeles whole-
salers for the purpose of an an-
nual August sale, requiring that
the goods be on hand immediately.

"The stock turn," he says, "is a
basic factor in economical dis-
tribution, and this great San Fran-
cisco distributing house, the largest
of its kind on the Pacific
Coast enabled to assemble this
merchandise, and through efficient
distribution, secure a determina-
tion of the most effective means of
increasing the stock turn and re-
ducing retail operating expenses.

That the slogan "always a buyer"
is the one that wins, and that
large stocks carried by retailers
and coming from far distant
markets in large volume tend to
reduce the turnover, and dimin-
ish the opportunity to give the
consuming public the greatest
possible return for their money.

"Many merchants find their
turnover problems in their stock
turnover and sales quotas. There
is a growing inclination on the
part of retailers to deal in greater
measure with the nearby jobber.
It is no longer necessary or de-
sirable to hold large stocks in re-
serve, and the time when any re-
tailer can afford to have his goods
in transit for from four to eight
weeks is past. The jobber is the
one who should have the stocks
on hand, and from whom the re-
tailer may order frequently as the
requirements of his own stock dic-
tate. The idea that a merchant
can save 6 per cent by placing his
orders in distant parts of the
country is a fallacious one, and
his attempt to guess the market

S. S. KRESGE ENTERS NEW ENTERPRISE

Twenty-five-Million-Dollar
Corporation to Finance
Big Deal

(EXCLUSIVE DISPATCH)

NEW YORK, Aug. 1.—Inquiries
in the financial district today in
connection with the reported ac-
quisition of the Plant Department
Stores at Newark, N. J., by the
S. S. Kresge Corporation, revealed
that the store had been acquired
by S. S. Kresge personally and
not by the Kresge Department Stores,
Inc., having been authorized capi-
talization consisting of \$25,000,000
7 per cent cumulative preferred
stock and 200,000 shares of com-
mon stock, no part of which will
be the active head and presi-
dent of the new organization, and
will have no voice in the man-
agement of the enterprise.

The new corporation, it is an-
nounced, is to be used for the
acquisition and development of a
chain of department stores in the
principal cities of the United
States, an announcement which
creates much interest among mer-
chants, bankers and investors be-
cause of the size and successful
records of the chain-store systems
with which the organizers of the
new corporation have been associ-
ated.

There will also be associated
with Mr. Kresge's new venture, the
of L. S. Plant & Co., Newark, and
C. E. Merrill of Merrill, Lynch
& Co., bankers for the S. S. Kresge
Corporation, identified with the
financing of a number of national
chain-store organizations.

Mr. Kresge in an interview to-
day said that "in the formation of
the Kresge Department Stores I
have put into operation a plan
which has had under serious con-
sideration for many years. I have
long been of the opinion that the
same principles of merchandising
and the efficient distribution of
goods perfected by the S. S. Kresge
chain can be applied with
tremendous success to the depart-
ment store field. Such a company,
operated along these lines, and par-
ticularly the S. S. Kresge chain,
of such chains, should have a
field for development almost lim-
ited in scope."

Building permits issued yesterday totaled
\$1,000,000.

Permits for the following were issued:

DAILY TRADE TALK

New California-New York Steamship Company
Ready for Active Financing

One of the most important units
of financing undertaken for some
time through Los Angeles sources
was announced yesterday by H. J.

Mallen & Co., Inc., following the
release of details regarding the
formation of the California-New
York Steamship Company, upon
which preliminary work has been
under way for some time.

This company is organized to
supply a transcontinental refri-
geration boat transportation service
between California ports, a service
which the promoters say, has been
long needed by California produc-
ers of perishable foodstuffs, who
are often subjected to heavy loss
because of car shortage and traf-
fic delays.

C. E. Whitcomb, vice-president of
the California Fruit Growers Ex-
change, is president of the new
company. He has been in Wash-
ington for some time com-
pleting arrangements for the pur-
chase of the boats to be used in
this service. A fleet of seven fast
fourteen-day modern refrigerators
will be carried on the boats.

The boats are of the cold
storage type, and the fleet will be
equipped to handle cargoes of per-
ishables, such as fruit, vegetables,
dairy products, etc.

It is estimated that the
equivalent of 250 carloads of
perishables will be carried on the
trip, through six trips per year
per boat or about 30 per cent of the
total tonnage of perishables ship-
ped to New York, Philadelphia
and Boston yearly, and saving the
shippers approximately \$2,000,000.

California producers of per-
ishables ship 175,000 carloads out of
the state annually, of which 25 per
cent, or over 40,000 carloads, are
shipped to and consumed in
Atlantic seaboard ports, a service
which the promoters say, has been
long needed by California produc-
ers of perishable foodstuffs, who
are often subjected to

LOS ANGELES EXCHANGE

General Petroleum common, Southern California Edison common and Outman United were the three stocks in which the public manifested the greatest amount of interest yesterday on the Los Angeles Stock Exchange. Prices were irregular in the stocks, while bonds were firm, the Union Oil and Edison issues attracting the best buying.	
Union Oil Associates displayed some activity at 4 1/2, unchanged from the previous day. General Petroleum moved between 30 1/2 and 35 1/2, closing at 30 1/2. U. S. Royalties appreciated 1 cent to 32 1/2.	
A gain of 3 cents was recorded in United Eastern, at a final price of 1 1/2. Gold Dust sold at 20, up 1 cent, and Outman United was active at 6 cents.	
Los Angeles Gas and Electric preferred was taken at 87, and Southern California Edison common sold at 102.	
In the bond trading Union Oil 8s of 1942 were transferred at 100 1/2. Edison 8s of 1944 sold as high as 100 1/2, and the 8s of 1944 got up to 90 1/2.	
Following are the closing quotations and sales:

OIL FRAUD SUE GOES FORWARD

Time of Grand Jury Is Conjectured
Aged Women Give Test Before Inquisitor
Local Corporations Call for Less Criticism

Whether the Federal grand jury working under the direction of David V. Cahill, assistant U. S. Gen. Daugherty, in the investigation of local individuals and corporations operating in the Los Angeles, Huntington Beach and La Brea Springs oil territory and where in Southern California have an early report on the activities of certain promoters depends entirely on the cooperation of the local authorities.

ments that may arise in the now being daily conducted Federal Building by Mr. C. Yesterday a number of witnesses were interviewed by Mr. Cahill what, if anything tangible was covered, is unknown. Two witnesses yesterday were women, who, it is understood, a tale of asserted fraud told to the officials.

CASE TO BE FORWARDED
It is the program of Mr.

There is not so much commotion involving Los Angeles operations as might be expected, where enormous operations in the oil fields in this vicinity, are considered. This is largely due to the fact that there has been much oil really found, and the people who invested in this, have had so far no real luck. They are satisfied with the situation.

Certified copies of the

It is possible that the bond in force there, under previous decrements, returned at Fort Worth, will be allowed to as there will be but one to the accused.

Whether the hearing will be Los Angeles, Cleveland or Waukegan, where identical

The grand jury will be in session today, and part of the testimony before it will be a further inquiry into the local oil interests. Witnesses along that line have been summoned to appear.

Horace P. Babson, Indian agent, filed a bill in equity in the case against the Oil Company's Trust as one of the promoters of the corporation, appearing before Commissioner Long yesterday afternoon, and gave him the sum of \$3500 for his appearance, when wanted. He gave his business address as No. 539

**Lamp Screwed
Fast to Table
Shade Is Stolen**

Several weeks ago a thief entered the parlor of Mrs. E. Kells at 727 South Bonnie and took a hand-decorated lamp. Determined to guard against repetition of the theft, Mrs. Kells bought a new lamp, and screw it to the table.

Yesterday the thief came back. He found the lamp screwed down and left it. But he took the silver. Now Mrs. Kells is planning to buy a lamp which will be

OIL FRAUD SIFT GOES FORWARD
Grand Jury Report Is Confirmed
Women Give Testimony Before Inquisitors

Local Corporations Come in for Less Criticism
Whether the Federal grand jury, sitting under the direction of Judge V. Cahill, assistant to Attorney General, in the investigation of local individuals and corporations operating in the oil fields of Southern California, will have an early report on the activities of certain promoters here, depends entirely on the developments that may arise in the probe being daily conducted at the Federal Building by Mr. Cahill.

CARE TO BE TAKEN
It is the program of Mr. Cahill to present a case to the grand jury as quickly as sufficient evidence is at hand to warrant the filing of an indictment.

There is not so much complaint among Los Angeles operators as might be expected, when the operations in the three oil fields in this vicinity are considered. This is largely due to the fact that there has been so much oil really found, that the people who invested their money have not so far so real reason to complain.

Grilled copies of the indictment returned against the various companies and the Oil Operators' Trust, these corporations and the officers and promoters of these enterprises, will be sent to Fort Worth for service upon the grand jury.

It is possible that the bonds now in force there, under previous indictment returned at Fort Worth, will be allowed to stand, as there will be but one trial of the accused.

When the hearing will be at Los Angeles, Cleveland or Milwaukee, where identical indictments have been returned, is not determined.

The grand jury will be in session today, and a part of the business before it will be to inquire into the local oil situation.

Witnesses along that line have been summoned to appear.

Mr. P. Babson, indicted in the case against the Oil Operators' Trust, appeared before Commissioner Long yesterday afternoon, and gave bond in the sum of \$2500 for his appearance, when wanted. He gave his business address as No. 525, Main Building, this city.

It is understood that several of the defendants in the case involving the Oil Operators' Trust are now in this city. They are expected to give bond to appear in the future.

PAYMENT IS REFUSED ON POWER CAMPAIGN BILLS
City Treasurer Declines to Accept Auditor's O. K. Without Legal Ruling on His Own Behalf

Payment of public funds for the reckless political expenditures of the Board of Public Service in the board's efforts to put over at the June 5 city election a power bond issue of \$35,000,000 was refused yesterday by City Treasurer Powell pending a ruling from City Attorney Stephens as to whether or not these bills constitute legal claims against the city treasury.

City Attorney Stephens, having notified City Auditor Myers that on him rests the responsibility for approving the Public Service Department's political bills, Mr. Myers accepted the responsibility and approved all of the demands which have so far arrived at the City Hall from the Public Service Department. Among these approved demands was one for \$249,799 payable to L. M. Anderson, controller of the Public Service Department, to recompense him for advance payments made during the early stages of the campaign for thousands of postage stamps, postcards, \$499 paid to George W. West to have picture slides shown in motion-picture theaters; \$1250 to S. K. Decker for having circulated mailings to voters and for similar expenditures.

Bright and early yesterday Controller Anderson presented his demands to the city auditor, who refused to pay them. Anderson then presented the demands to the city treasurer, who also refused to pay them.

"I am sorry," said City Treasurer Powell, "but I cannot pay this demand until I have received instructions from the City Attorney."

"I understand that a taxpayer's injunction suit is to be brought against these expenditures, so I am presenting the demand at once," said Controller Anderson.

"I also understand," said City Treasurer Powell, "that an injunction suit is to be brought, and I am not going to pay out any money until I know where I stand. If I do pay it out without instructions to do so, then I and my bondsmen will be personally liable for the money, so I must be protected and the city's interest must be protected."

Controller Anderson left the City Hall with his unpaid demands, and the city auditor, who had been approved late Tuesday by City Auditor Myers, in the letter the City Treasurer says:

"As you will know it has always been my policy to pay out money regarding any action I should take relative to the legal procedure in the case of the Oil Operators' Trust, and in my mind relative to the same, and to this end I may be fully advised as to the legality of these claims, and I am now protected in the premises, I respectfully request that you advise me as to the possibility of the auditing by the City Auditor of a claim in final and the legality of the claims established by the Oil Operators' Trust, and the claim of L. M. Anderson, Controller, for the sum of \$249,799, demand No. 100."

(Continued on Eleventh Page)

GAS IS CHEAPER THAN IN YEARS
Coupon Concessions Bring It to 15 Cents
Small Refiners Disturbed by Reduction
New Price Lowest of Any in United States

It was learned last night that plans are being made by the oil producers in fields adjacent to Los Angeles to take steps at once looking to a further curtailment of pipe-line acceptances. Such action, they believe, will result in preventing any cut in the price of crude oil at this time, a situation which was brought about yesterday with the decrease in the gasoline price.

Despite the fact that the so-called gasoline war is largely local in character, the decrease on gasoline were made by the major companies throughout the Pacific Coast, so that from their viewpoint it becomes much more than a Southern California move. At the same time it was pointed out that gasoline at the present time is the one commodity of oil production that is enjoying more or less of a free movement, due to seasonal conditions, although even in this product storage stocks are showing a constant increase.

If the flood of crude oil production continues it is obvious that there must be a cut in the price. It is apparent that the estimates of potential production made by the engineers for the oil producers' committee as published in The Times early last month are being exceeded.

For the past two weeks or more the tail has been wagging the dog in the local gasoline-price situation. Yesterday morning early the dog got up and shook himself and when he got through, the price had tumbled 2 cents to 17 cents, which in reality is 15 cents net. All day yesterday the independent station operators and the smaller refineries were busy on the telephone with price discussions.

Some thought it best to follow along on the gasoline break, others thought a second time and took a peek at the general ledger, and a few others waited for a scientific result. Major gasoline stations are selling at retail at 17 cents with varying sorts of discounts in the form of coupon books, identification cards, etc., which bring the price to the consumer down to 15 cents. Many of the independent stations are selling at 17 cents, and others dropped to 16 cents and still others made the price 15 cents, no coupons and no cards, and let it go at that.

LOWEST IN YEARS
Gasoline today in Los Angeles is the lowest it has been in a number of years, the price fluctuations since January, 1918, are shown in the following table, according to the statistics of the Independent Petroleum Marketers' Association of California:

Month	Price per gallon
January, 1918	28.00
February, 1918	27.00
March, 1918	26.00
April, 1918	25.00
May, 1918	24.00

May, 1923	0.00
June, 1923	0.00
July, 1923	0.00
August, 1923	0.00

Incidentally Los Angeles is today enjoying the cheapest gasoline of any point in the United States with the exception of places in Texas and Oklahoma, near the oil fields, where the quotation is said to be around 11 cents per gallon retail.

Under the new price arrangement here independent dealers are generally handling the product at a differential of 3 cents, that is, gasoline is delivered to their tanks at 12 cents in case where coupons are taken in or cards recognized. Those who have no coupons or cards are paying 15 cents straight, get their product for 12 cents also, and in some isolated instances, due to prior contracts, for 11 cents and 10 cents. The wholesale prices of practically all grades of gasoline are being advanced.

Federal Body Conducting Hearing Here
Tax Commission Starts Session
Under the rules adopted by the Commissioner of Internal Revenue, without being compelled to go to Washington and hire an expensive lawyer or two to present their cases. The work will be done here at home, with a minimum of trouble and expense. The work of the commission is an innovation inaugurated by Commissioner Blair, with a view to assisting taxpayers in getting quick action on their appeals. The commissioners came here from St. Paul, where they were similarly engaged for some time.

There are ninety cases on appeal pending before the commission and its members may be in Los Angeles a month or more hearing the appeals of income taxpayers who think they have been illegally assessed by the collectors of Utah, Arizona, Nevada and California, the territory covered by the pending inquiry.

Under the rules adopted by the Commissioner of Internal Revenue, there will be three hearings a day—at 9:30 a.m., 11:30 a.m. and 2 p.m.

Miss Anna Moore of Washington, D. C., is acting as secretary of the commission, and Collector Goodrich is acting as clerk. The commissioners are taking the notes of the hearing.

The work of the commission marks the inauguration of a new program of hearing appeals by the Commissioner of Internal Revenue, making it cheaper and more convenient for complaining taxpayers to get their troubles before duly accredited representatives.

SHP LIQUOR NOT SEIZED
First Local Ruling Allows French Vessel to Proceed Under Laws of Own Nation

The first local test of the recent government ruling which prohibits all vessels from bringing liquor into the territorial waters of the United States was made yesterday and resulted in a signal victory for the French liner Alaska, which was allowed to proceed under the laws of her own country in respect to the amount of liquor carried.

The test was made in the case of the French liner Alaska, which arrived here yesterday from Le Havre. Acting on information received from Washington, C. A. Parker and F. C. Neal, representing the customs office and prohibition authorities, attempted to seize the vessel on the grounds that it had violated the law by bringing liquor into port.

They boarded the vessel for this purpose but the captain immediately communicated with Louis Senious, French Consul here. The latter telegraphed to the French Ambassador at Washington. A short time later a reply was received stating that the matter was being turned over to the United States Public Health Service. This amount of liquor carried.

OESTERREICH WIDOW HELD
Must Stand Trial Before Judge and Jury
Justice Refuses to Admit Her to Bail
Defendant Accepts Ruling With Calmness

Mrs. Walburga Oesterreich, accused of the murder of her wealthy husband, must stand trial for her life before a judge and jury in the Superior Court. That was definitely determined yesterday afternoon when Justice Baird held her to answer in the preliminary hearing which has occupied his attention for the past week.

The justice also refused to admit her to bail, declaring that he had exercised a precedent of never releasing a murder suspect on bond, and despite the weight of the defense evidence, declined to do so in this case. The motion for her release was made by Defense Attorney George C. Smith, who cited numerous authorities and was resisted by Chief Trial Deputy Fitts.

A writ of habeas corpus, seeking release of his client, is to be filed by Mr. Oesterreich, he said yesterday. This is to be done as soon as the justice has had an opportunity to examine the transcript. The heads of his plea, he said, will be the insufficiency of the evidence.

Mrs. Oesterreich took the decision of the court in the same impassive manner which has characterized all her appearances in court. She turned a slight smile to the justice and his clerk, and her friends who flocked to her side. She said she regretted returning to the "little cell" in the grim County Jail which is now her home, but apparently retained a spirit of bravado.

PLEADS FOR BAIL
In pleading for the widow's release on habeas corpus, Defense Attorney George C. Smith called the attention of the court to the fact that all her interests were centered in Los Angeles, that the value of her husband, valued at \$125,000, was still in probate and that she had remained in the city during the murder and her arrest without an effort to flee.

If she was a poor, friendless Mexican woman, declared Mr. Fitts, in arguing against the motion, "there would be no such motion before the court. It is the fact that she is a wealthy woman, and that she has remained in the city during the murder and her arrest without an effort to flee, that makes the case so unusual."

Mr. Oesterreich's argument was that the court should grant her bail, as she had no means of fleeing, and that she had remained in the city during the murder and her arrest without an effort to flee.

Attorney Dominguez insisted that no quarrels perturbed the quietude of the Oesterreich life. He said he had no quarrels with the court, and that he had no quarrels with the court, and that he had no quarrels with the court.

WIFE SAYS YEAR'S ENOUGH
Sues Wealthy Oil Man on First Wedding Anniversary For Separate Maintenance

Mrs. Marie P. O'Connell yesterday celebrated the first anniversary of her marriage by filing a suit for separate maintenance against Elmer O. O'Connell, wealthy oil man and race horse owner. One year with him was all she could stand, she declared. He put the climax to nearly a year of unhappiness Tuesday, she said, when he picked Seventh street and Broadway as the place, and a loud voice as the tone, in which to have a final quarrel.

LONGING EYES ON SOUTHLAND

Louisiana Delegation Lauds
City's Advantages

Members Returning From Trip
to Tacoma Parley

Advantages of Own State
Are Extolled

That the State of Louisiana is likely to lose a part of its population in the near future seems entirely probable, to judge by the comments on Los Angeles voiced by the representatives of the Homestead Association of that State, now sojourning in this city. To the last individual, the members of the party, which is staying at the Alexandria, expressed in the most glowing terms their intense admiration for Los Angeles and Southern California.

Several stated that the call to come here to live was so strong it was likely to prove irresistible in the end. The Louisiana delegation, which is on its way home from the convention of the Homestead Association in Tacoma, is stopping here for a few days to see the city. The members have already visited several points of interest in this vicinity and their enthusiasm seems to increase in proportion to the length of their stay. Like the stateliness of the buildings, the orange groves, the palm trees, the beaches, the high intelligence of the functionary who has out information on the coming business.

It is surprising to me how well known was the magophone vision, who called our attention to various points of interest and passed them on our trip yesterday," said Harry McInerney, assistant business manager of the Louisiana-Picayune of New Orleans, who is one of the prominent members of the party. "He seemed to know all about the things he pointed out and the amount of information he disseminated through a voice amplifier was truly amazing."

LIKE LONG BEACH, TOO
The admiration of the Southerners is not confined to Los Angeles but extends to other places as well.

Long Beach is a wonderful place," said McInerney, and it is one of the most magnificent I ever saw. Long Beach is the middle city of the Pacific, in my opinion. The greater number of the Louisiana delegation are from New Orleans, with a few representatives from other cities, principally Monrovia, which is said to have the greatest number of natural gas wells of any place in the United States. Sigmund Haas of Monroe, La., the prospects at this time are in the Monroe district will soon become known as an oil center. Several wells are now being drilled in the vicinity of our town in view of the vast gas production in the district there is every reason to believe that oil will be found," he said.

Some of the gas wells there are among the greatest producers in the world, according to Mr. Haas. He said that one was recently brought in that yielded 20,000,000 cubic feet of gas a day. The gas is used for illuminating and heating purposes and also in the production of carbon. A part of it is used in the production of gasolene.

According to Philip Lieber, the Homestead Association representative in Shreveport, Louisiana, one of the largest salt mines in the world, located in Iberia Parish, and also the greatest sulphur deposits, which are found in Calcasieu Parish. In the city of Shreveport they have the second largest glass-manufacturing plant in the United States, an enterprise established within the last few years.

KLAN IS DYING
Louisiana said the Ku Klux Klan disturbances in their country, which recently attracted attention all over the country, are rapidly dying out.

"The Klan is rapidly dying out," said Mr. McInerney, "and so far Louisiana is concerned we are doing forth every effort to efface entirely. Most of the men who were affiliated with the organization some time ago have been withdrawn. The greater number were induced to join its through statements made by its leaders in reference to the character of the Klan and, immediately upon becoming apprised of the nature, they got out. Americanism doesn't need any guards in the South or in the country, either, in my opinion. It will take care of itself. The southern people are the most to be found anywhere in the country. We are not much affected by radicalism or the I.W.W. in our opinion. If any symptoms of movements of that kind manifest themselves we take prompt measures to stamp them out immediately. We have a large foreign population in Louisiana, but so far as I know we aren't a Red in it. It seems to me the spirit of loyalty and good citizenship that animates our people is infectious and gets hold of the foreigner the minute he comes among us, and in no time at all he is as good an American as the native of the soil."

Covina Spanish
War Veterans
Honor Officers

A reception in honor of Department Commander Tom C. Galbreath and Department President Jeanette will be given by Camp, No. 77, and Covina Chapter, No. 49, of the United Spanish War Veterans, in Covina, Saturday.

Galbreath, Mrs. Jeanette and staff will motor to Covina this city Saturday morning. They will be joined en route by their wives and ladies from Pasadena, Glendale, Inglewood, Los Angeles Harbor, Pomona, Sawtelle, Burbank, Riverside, Redlands, and Santa Monica, Long Beach and San Bernardino. The Los Angeles drill team will exhibit of drills at the conclusion of the reception.

Bullock's August Clearance

"The One Sale of the Year"

On! Full Swing!

—As rousing an occasion as it has ever been Bullock's pleasure to experience. The magnificent response of the past few days is but inspiration to continue with increased vigor toward a high set goal.

Thursday— An Impressive Continuance

—New offerings of stock merchandise with prices fractionized to fill the gaps made by hundreds and thousands of enthusiastic shoppers.
—New offerings of specially purchased merchandise to add fresh vigor to the two-fold theme of opportunity, so firmly embedded in the foundations of this great sale.

—Every Section of the Store Again Ready— Determined and Equipped to Make New Records of Salesmaking—Thursday

—Ideals of service—Sincerity—Satisfaction—etched clearly and ineradicably into every activity.
—Another day of convincing economies—measured by those strong elements of Value—Desirability and Quality—in the light of extremely Low Prices.

—It should be to every woman's advantage to list her needs—make her plans to shop at Bullock's—Itemization would entail extended space—might but serve to confuse.

—Opportunities to buy fine Silks at low prices should be emphasized.

—So should equally attractive opportunities to purchase Cottons, Woolens, Flannels, Ginghams, Linens, etc.

—Bullock's August offerings of Fur Trimmings, Laces, Embroideries, etc., are very impressive.

—Women's Hats are being offered at prices ridiculously low. Many new season hats that partake of popular fabrics, trimmings, shapes and colors. A Millinery episode of note.

—Women's Suits, Coats, Dresses and Blouses, all stress the wisdom of August Clearance Shopping at Bullock's.

—The great August Sale of Furs continues. This is a splendid event. Itself worthy of individual announcement—individual shopping attention. An occurrence zealous of integrity that maintains a Standard of Quality, while reaching toward low levels of price.

—Women's Silk and Knit Underwear, Corsets, Negligees, Sweaters offer singular savings. Many splendid offerings to make Clearance an expeditious matter Thursday, at Bullock's.

—Did you ever see more inspiring scenes of activity than those on Bullock's First Floor? Jewelry, Silverware, Ribbons, Gloves, Handkerchiefs, Hosiery, Bags, Neckwear, Notions, Toilet Goods, Stationery—all claiming their own quotas of attention through values.

—Take note of Values for Children. The Store for Boys' clearing away good Suits, Sweaters, Shirts, Hats, Ties, etc. Children's Shoes, Underwear, Hosiery. Girls' Wearing Apparel—casting an encouraging light upon provisioning for school days. A wise precaution with prices as low as they are in Bullock's August Clearance.

—The accomplishments of the Store for Men promises unusual values—certainly no one should ignore fractionized prices such as these on such good merchandise—Men's Shirts, Undergarments, Ties, etc.

—Bullock's Art Needlework and Gift Store and the Gift Balcony are busy marts. Untold opportunities promised for every moment, Thursday.

—Golfers! Travelers! Don't overlook the values in the Golf and Luggage Stores at Bullock's. Don't miss these offerings of Savings—Thursday. Dozens of them ready.

—And in the Home Furnishings Section—Draperies, Curtains, Bedding, Rugs, Furniture—Reed Furniture also. Oriental Rugs included. Each interpreting vigorous economies for Bullock's August Clearance Shoppers.

Thursday—an Impressive Continuance of Bullock's August Clearance

GOING SOME
Only ten hours by airplane from Seattle to Los Angeles. That is surely a swift and happy flight. Over the austere snows of Shasta to the perfumed paradise of Pasadena in the span of an eight-hour day. Fine!

DOBBIN BACKING UP
The international union of horsehoofers announces the emphatic belief that the day of the horse is about to return. Aren't they the cheerful optimists! Some of our youngsters already look upon horsehoofing as a lost art. There is a horse laugh for the union.

CHANGE OF FRONT
Eamon de Valera says that the war in Ireland is over and henceforth the efforts of himself and his patriotic associates will be along educational lines. Teaching the young idea how to shoot from ambush, as it were. It would be well for the friends of peace to check up on De Valera's educational program.

AMONG THE DEAD ONES
One of our Broadway theaters announces Milton Sills' "Last Hour," while another exhibits Milton Sills as "Legally Dead." It would seem that the only thing to do for Milton under the circumstances would be to call in a flock of pallbearers to perform their somber function. Otherwise the Board of Health may interfere.

NO BREATHING SPELL
Now it is claimed that the much-indicted superintendent of the Anti-Saloon League, who has been having a clean sweep with the funds of that organization, has also been absent-minded in the matter of computing his income for the tax-gatherer. When a man gets into trouble he goes in clear to the neck. If he is being persecuted they are trying to make a complete job of it.

BRIGHTENING THE WORLD
How time flies. Alfred Misco, oldest of clowns, is dead after tramping the tumbark and sawdust for sixty-six years. At the age of 9 he ran away from home to join Yankee Robinson's circus, which is about the first one that the old-timers can themselves remember. He wound up after twenty-five years as chief of the Ringling funnies. His Shakespearean burlesques were diamonds of innocent merriment. In his way he caused a million laughs and that in itself is a record worth while.

NOT IN THE TREATY
We have here in Southern California a band of devoted crusaders, working to the full strength of human ability, to spread the light of education for checking among our boys and girls the terrible spread of the narcotic peril. They are just plain American citizens, but they fear neither man nor devil where pity for the unfortunate is pitted against the illegal drug peddler.

In contrast to this we read that the titled and be-medaled diplomats of Europe, armed with the authorities of governments, backed by powerful armies and navies, were afraid to include a clause in the Lausanne Treaty to limit the export of opium, because such a stipulation would have delayed the signing of peace with Turkey. And Turkey supplies the greater part of the drug that demoralizes and wrecks human lives. When something of real importance has to be done it takes just "common people" to do it.

PEACE BARRIERS
Few men are of the opinion that there will be any award of the second half of Edward W. Bok's \$100,000 peace prize. This \$50,000 is conditioned upon the acceptance and adoption of the plan by the United States Senate. It will be necessary to look at the situation through European glasses. No plan which does not take knowledge of existing national tendencies, weaknesses and prejudices and perhaps even selfish ambitions can be regarded as practical. Ordinarily the winner of the prize would be a mixture of statesman and economist, with a touch of the philanthropist and idealist and one who had informed himself by personal visitation and contact with existing conditions—particularly in England, France, Germany and Belgium. He must understand the mental, moral and material condition of the peoples of those lands. Finally he should be able to make his plan a political possibility in this country. That would be the greatest stumbling block of all. The head of the Western Union company declares that the odds are very heavy against the ultimate payment of the second half of the Bok award. He asserts that no workable plan is ever likely to pass the United States Senate—at least not until it has been mangled past individual recognition. The world has a keen perception of the lung capacity of the Senate, but is strangely deficient in respect for the restraining powers of that body. If all the world were at deep and unrelenting peace and America housed only industrial content the United States Senate would still be playing with matches in the hope of setting the Capitol on fire.

BACK TO NORMALCY
By reason of the President's illness the address which he had prepared for San Francisco, summarizing much that had been said in detail at other places and completing the series, was released to the press without actual delivery. It is a temperate, courageous, hopeful resume of existing conditions in this country and in the world at large, as viewed by the government.

At no time in our history have our relations with other nations, excepting Russia, been more cordial. The one bit of blue sky in the international heavens is that above the territory on which flies the Stars and Stripes. Our hand is raised in a threatening gesture against no country and that of no other country is raised against us. In the words of the President:

With becoming dignity we have maintained our rights; we have yielded willingly to the rights of others and we dwell in cherished and unthreatened peace.

But the President emphasized that the present condition of peace is due in part to isolation and, for that reason, does not rest on a substantial foundation. So long as nations resort to force to settle disputes no people can rest in absolute peaceful security. To rest in peace while the rest of the world is at war necessitates either that we shall go armed to the teeth or that our government shall make humiliating sacrifices when what we consider our rights clash with the aggressive aspirations of other peoples.

Security can only be attained when our country does its part to bring the blessings of peace and the absence of fear of war to the other nations of the world. The President asserted his belief that the path to peace lies along the line of establishing a "Permanent Court of International Justice."

"I do not know that such a court will be untailing in the avoidance of war," wrote the President. "but I know it will be a step in the right direction and will prove an advance toward the international peace for which the reflective conscience of mankind is calling. . . . I would be inassessable to duty and would violate all the sentiments of my heart and all my conviction if I failed to urge American support of the Permanent Court of International Justice."

As to the precise nature of the terms under which our nation should accept membership the President is not dogmatic. His personal reference is for the court as it is now created; but "As President of the United States I am more interested in adherence to such a tribunal in the best form attainable than I am concerned about the triumph of Presidential insistence."

If a similar sentiment had been voiced by President Wilson in the summer of 1919 how different would have been the record of recent international relations. With America a member of the League of Nations, under any reservations, there would have been no French occupation of the Ruhr; for the conditions which brought that about would not have existed.

The President sees the court itself as the main thing. He looks to the moral effect, the restraining influence it would have upon nations that have known in the past only military settlements. There may be military governments; but there is not a people in the world that would not prefer settlements, even at minor sacrifices, to the horrors and the misery of international war.

In his resume of the things accomplished in a little more than two years under the present administration the President presents a record of peaceful achievement that has been exceeded by no administration in the same length of time. So many great events have been taking place in the last ten years that we have perhaps been losing our sense of proportion; have perhaps not appreciated the full extent of these victories of peaceful diplomacy.

In the opinion of the President the four most important of these were the negotiation of peace with the Central Powers; "the protection and promotion, amid the chaos of conflicting national interests, of the rights of American citizens; the creation of an international situation so far as the United States might contribute thereto, which would give the best assurance of peace for the future; and the pursuit of the traditional American policy for friendly co-operation with our sister republics of the Western Hemisphere."

But there is nothing of the boastful attitude in the utterances of the President. He refers nowhere to "my policies." He does not seek to take all the credit for what has been accomplished. In a gracious expression disclosing his total lack of egotism he asserts that: "I submit them with unreserved pride and sincere tribute to the historic service of a great Secretary of State." In that willingness to give full credit to others one gets the measure of the man. He builds no pedestal for himself; he asserts no superior knowledge or heroic virtues; he is just one of us doing his best, according to his lights, to enable the American republic and the American people to live in amity with the other nations of the world.

The President refers in an optimistic utterance to the development of negotiations for the establishment of friendly governmental relations with Mexico. He sees no insurmountable obstacle to early recognition. But he expresses such hopes in regard to our relations with Russia. "The establishment of a basis of permanent improvement in Russia," he asserts, "largely within the power of those who govern the destinies of the country, and political recognition prior to correcting fundamental error tends only to perpetuate the ills from which the Russian people are suffering."

WOODROW WILSON'S WARNING
Dr. Woodrow Wilson, former President of the United States, has begun to worry about the world again.

In an article in the Atlantic Monthly he voices his alarm and suggests a few remedies. He reminds us that, presumably through his earnest efforts, the world is now safe for democracy. What remains as a world danger in his eyes is the "capitalistic system."

It is not entirely clear just what he thinks ought to be done about it. Dr. Wilson is a fascinating and wonderful writer. What he says about the situation or condition or whatever it ought to be called has an impressive and menacing sound.

The trouble is we have been alarmed and alarmed before by Dr. Wilson's eloquent pen—and to our consequent dismay. Although he apparently looks upon his record as a democracy-saver with serene and benign satisfaction, the rest of the

The Great American Farm Problem—What Will He Do With It?

(Illustrated by George Matthew Adams)

world is not so well content. Looking at the condition of the patient and then at the doctor leaves us a trifle cold when we should be trembling with the thrills of valiant crusaders.

TEN KNIGHTS
A picturesque revival of a custom of medieval days was staged recently in Joliet, Ill., when two youths decided to emulate the knights of old and engage in a jousting tournament over the love of a fair lady. Unfortunately the unsympathetic police broke up the spirited affair and dragged the contestants before the court, where they were each fined \$25 and adjured to battle no more.

Alexander Jaross and David Davis loved the same willful and flirtatious miss and, being torn with jealousy, challenged one another to mortal combat. But shades of romantic chivalry of past centuries must have shuddered as they witnessed the joust, which had a distinctly Chaplinesque air. Instead of prancing palfreys, the modern knights were mounted on silvers, which they drove at each other with great ferocity. According to the policemen who made the arrest at the behest of startled residents, the dauntless knights endeavored to see which could ram the other the hardest, the one who got wrecked to be considered vanquished.

But the chariots from Detroit were of a similar age and size and, though the neighborhood was rendered hideous with the crash on crash of tin, neither emerged the victor. Justice McDowan, weighing the evidence with judicious care, could not forbear to leave a romantic sigh over the valor of the contestants and remanded the fine on the agreement of the young people to go forth and do battle no more.

FOR OUR OWN UNIVERSITY
Los Angeles facilities are having a hard job to keep up with the growth of the city. Though not stressed so often, because not so directly touching our more apparent needs, the demand for higher education is a problem that every month grows more difficult to solve.

To meet this demand we have our own University of Southern California, which, given the hearty and unalloyed support of our citizens, can be extended to fill the gap between the school and the career. Dr. Von Kleinsmid states that nearly 500 young men and women had to go North or East last year to get the education they required because the Southwest was not equipped to meet the rush.

The quickest and surest way to catch up with the race here of the young and ambitious for higher educational advantages is to make our Southwest university adequate for the purpose.

TWO MINUTES OF OPTIMISM
BY HERMAN J. WITCH

Your Newspaper is Your Educator

Your newspaper—it is good, isn't it, to feel it is yours—a valuable aid (if you will let it be) as an educator. For the future of this great section be founded on a solid rock, our citizens should see that our own university gets the financial support necessary for carrying forward this essential work.

What is the matter with this sentence: "The new second-street tunnel will soon be opened." De Valera says that the war in Ireland is finished. So is De Valera, according to our view from the sidelines. Senator Underwood of Alabama is already in the ring for the Presidency. Has that dear old father-in-law agreed to finance the undertaking? They are talking in the English Parliament about a threatened war with Japan. But it may only be a shock absorber for the unrest of labor over there.

David Belasco has invented a new system of stage illumination that promises to be a success. Why not let the light of knowledge shine on the lights to the stars? It is claimed that the country has been shocked by the fact that wheat dropped to less than \$1 a bushel. But why—there is many a shock in a field of wheat.

Jim Jeffries is about to go on a lecture tour. He will discuss the Jews in Palestine. Hope he won't fall over the ropes as he did on a certain hot July day at Reno in 1916.

It may yet turn out that old Dock Cook will have an opportunity to present his proofs to a local Federal grand jury. They may not be as easily fooled as the Copenhagen savants.

The German Cabinet has agreed to an increase of 100 per cent in the income tax. They have learned the charming ditty of Collector Goodell, "Pay your income tax and smile."

If the Democratic party is put to it to find a good place for holding their national convention, what is the matter with French Lick Springs? It would be handy for Tom Taggart, Charlie Murphy and George Brennan.

PEN POINTS
By the Staff

What is the matter with this sentence: "The new second-street tunnel will soon be opened."

De Valera says that the war in Ireland is finished. So is De Valera, according to our view from the sidelines.

Senator Underwood of Alabama is already in the ring for the Presidency. Has that dear old father-in-law agreed to finance the undertaking?

They are talking in the English Parliament about a threatened war with Japan. But it may only be a shock absorber for the unrest of labor over there.

David Belasco has invented a new system of stage illumination that promises to be a success. Why not let the light of knowledge shine on the lights to the stars?

It is claimed that the country has been shocked by the fact that wheat dropped to less than \$1 a bushel. But why—there is many a shock in a field of wheat.

Jim Jeffries is about to go on a lecture tour. He will discuss the Jews in Palestine. Hope he won't fall over the ropes as he did on a certain hot July day at Reno in 1916.

It may yet turn out that old Dock Cook will have an opportunity to present his proofs to a local Federal grand jury. They may not be as easily fooled as the Copenhagen savants.

The German Cabinet has agreed to an increase of 100 per cent in the income tax. They have learned the charming ditty of Collector Goodell, "Pay your income tax and smile."

If the Democratic party is put to it to find a good place for holding their national convention, what is the matter with French Lick Springs? It would be handy for Tom Taggart, Charlie Murphy and George Brennan.

The recent Senatorial fight in Minnesota almost wiped out the Democratic party. The political warfare in North Dakota has had the same result. In 1924 if the result were the same, the farmers would be in a predicament. The farmers would be in a predicament. The farmers would be in a predicament.

CHANGES IN AUTO LAW EFFECTIVE SEPTEMBER 1, 1923

BY STANDISH L. MITCHELL.
Secretary of the Automobile Club of Southern California.
California motorists will find themselves out of step with the procession unless they learn the changes and additions to the rules of the road which are contained in the new California Vehicle Act adopted by the Legislature at its recent session. These changes become effective September 1, 1923.

(1) The speed law governing the operation of passenger vehicles is as follows: "Any person driving a vehicle on the public highways of this State shall drive the same at a careful and prudent speed not greater than is reasonable and proper, having due regard to the traffic, surface and width of the highway, and no person shall drive any vehicle upon a public highway at such a speed as to endanger the life, limb or property of any person."

Subject to this provision the legal speed limits are as follows: Fifteen miles per hour—(1) in a business district which is marked with the triangular green signs; (2) at obstructed grade railway crossings; (3) at highway intersections where the driver's view is obstructed; (4) in going around curves where the driver's view is obstructed; (5) in passing a school when persons are entering or leaving the grounds thereof.

Twenty miles per hour in residential districts and thirty-five miles per hour under all other conditions.

The thirty-mile speed limit is abolished. There are certain other speed limits applicable to heavy vehicles and those equipped with solid tires which should be of interest to anyone interested in the operation of such vehicles.

Speed in excess of the limits stated is declared by the law to constitute prima facie, but not conclusive, evidence of speeding. Every notice of arrest and every complaint must state the exact speed limit at the time and place of the alleged offense and the approximate rate of speed at which the defendant is accused of traveling. Motor vehicle officers are not to be allowed to testify as to the speed of a vehicle if their information is obtained by the use of a "speed trap."

(2) Hand signals must be given before turning from the curb, before turning to the left or right or before slowing down or stopping. Such signals must be given from the left side of the vehicle—not from either side as heretofore. Signals should be given for at least fifty feet before beginning a turn. If the signal cannot be given by the use of the hand or arm it should be given by a mechanical signal, as, moved by the Division of Motor Vehicles.

(3) Any vehicle overtaking another vehicle shall pass at least two feet to the left thereof.

(4) Vehicles must not pass a street or interurban car on the left when overtaking the same.

(5) The driver of a vehicle which is being overtaken and passed shall give way to the right and must not increase his speed until completely passed by the overtaking vehicle.

(6) No vehicle shall pass another at an intersection of highways unless directed by a traffic officer to do so.

(7) Do not drive closer than fifteen feet to the rear of a vehicle ahead of you outside of a business or residential district.

(8) A vehicle with a trailer must not follow another vehicle and trailer closer than 100 feet.

(9) Vehicles approaching from the right have the right of way over vehicles entering an intersection of highways from the left unless the vehicle which is coming from the left has already entered the intersection. Entering an intersection at a speed greater than the lawful speed at that intersection forfeits your rights to the right of way.

(10) Vehicles entering a highway from a private driveway must yield the right of way to all other vehicles which are approaching on the highway.

(11) No vehicle should be left standing on a highway outside of a business or residential district unless at least fifteen feet clear of the highway is left clear for traffic to the left of the parked vehicle.

(12) Vehicles must not be parked on a highway in front of the entrance to a public or private garage or within fifteen feet of a fire hydrant or the entrance to a fire station.

(13) Drivers of automobiles carrying passengers for hire or school buses or trucks carrying materials which are inflammable or explosive must make a full stop at least ten feet nor more than fifty feet back of the crossing before crossing any street or interurban railway crossing.

(14) Any headlights which are sold after September 1, either on new automobiles or otherwise, must comply with the new specifications. Motorists may continue to use their present equipment until December 31, 1923.

(15) If you have a collision in which a person is injured you must immediately report such accident to the Chief of Police. If the accident is in a city or to the Sheriff of the county if the accident occurs outside a city.

(16) If you are involved in a collision with a person or another vehicle you must give your name and

By The Footbill Philosopher
I notice by display advertisements in popular "new-thought" periodicals that many more and clever students of psychoanalysis are establishing schools and studios in which they guarantee to teach man and woman how to love themselves. Great Britain and the United States are now in a tragedy could overtake a human being than to be provided with knowledge of how to dissect one's own soul? So long as the psychoanalysts hold themselves in the trayer other folk there was no reason for alarm, but now that they have begun to teach us to analyze ourselves it is time the unwary were warned.

After several thousand years of almost chronic intoxication, centuries of fondling the senses and legitimate self-deceit in the effort to prevent ourselves from looking our souls up in their nakedness before the pitiless mirror of life, we are told by a certain class of the modern schools of psychology that we are to be taught how to make a full view of our souls, to see the possible privilege of learning them to tatters and perhaps reconstructing them in the image of a hazy, indefinite ideal—which may bear the seed of destruction or ultimate confusion.

Gods of the elements protect us from the starchy heavens, keep us earthbound! Fathers of sensibility, masters of the means, hold us fast with steady hands and make us remember that we are children. Surely there is one eternal maker and Director. Kill in us the mad ambition to achieve something good! Already we have the mistake of eating of the fruit which gave us the knowledge of good and evil. Let us not add to the seed of life to our confusion. Prevent us from seeking that clarity of perception which because of our limited organs of sight, could last but a moment after which we should be plunged into "the blindness of darkness," although we might "live forever."

"To see ourselves as others see us"—we do not really desire that. However, that would not be tragic and sometimes we are obliged to catch such visions. Let us to see ourselves as we are—let us not pray for such sight.

No enemy of man is so cruel as he himself when once he begins to gaze at his own soul. He is in the way of his own mind. Rise to whatever height of heaven we may, the spreads out below us. Consider yourself a god—and suddenly you are not and you are the worm as well as in paradise. Pray, and anoint your head with oil, become a saint. If you will and the face of egotism will be seen in the sky. Dream. Dream of your own mind. Dream of the truth, or from any part of it, and all the pangs of Lucifer's years.

Not long ago I was walking on Broadway, day-dreaming, when a truck parked against the curb. What was the first thing of which I was conscious? The pain of my forehead, which brought a large bump to my forehead? No. The thing I was conscious of was that I thought that a score of persons were looking at me and I was thinking of myself as a god—and suddenly you are not and you are the worm as well as in paradise. Pray, and anoint your head with oil, become a saint. If you will and the face of egotism will be seen in the sky. Dream. Dream of your own mind. Dream of the truth, or from any part of it, and all the pangs of Lucifer's years.

If you can go deep enough you can realize yourself for the preme Self, the "Over-soul." Proceed with your head in the clouds and your feet on the ground. "Proceeding" or "going backward" no changing from place to place, time to time, no passing from one to birth or life to death, no coming from one "state of consciousness" to another, no discrimination, no need for creation or recreation or change of any kind. And perhaps you will see and feel that there is no need for anything. However, as an entity apart from other apparent entities, as a separate from life itself, beware of self-analysis! It will take you to the darkness where you can see only one another's presence. It will carry you to the marshland of emotion. Know yourself! There is nothing to you to know, if you consider yourself a god apart from multitude. Forget yourself entirely—if you can. Strive toward the end and it may be that in that end of the great illusion of vanity, made me miserable.

If you can go deep enough you can realize yourself for the preme Self, the "Over-soul." Proceed with your head in the clouds and your feet on the ground. METTL
None ever yet has conquered by walling bitterness at Fate. Nor ever had enough to bear. To make his life all desolate.

The coward who knows despair. Refusing to be comforted—There's joy in feeling it to be. A crown of thorns upon one's head.

So let us fill our cups of gall To drain a health to all. Here, wishing true good luck to all. And, lo! we have found peace of mind! LEE SHIFF

KHJ STEALS OCEAN'S MAGIC

Murmur of Sea Found in Tempo Venice Band Strikes in Swelling Ensembles of Old Tunes

BY BEN A. MARKSON

Old Venice Pier which burned was capped by a tower above the
summers where resided the most picturesque publicity agent and poet
ever exaggerated the wonders of the beach resort. Nightly dur
the summer months for a span of years he used to gaze from the
new windows at the expanse of dark waters and the colored lights
the towers, and when the beat of the music by the Venice Band as
and mingled with the cadence of the surf he would wave a
inspired baton—and sing a paean, a song-epic of praise, about
Venice Ferullo, leader, and the
the heavy plash of water last
from the air cooler on the
the roof suggested an oceanic
its murmur and tempo
without the cloak of fancy—
to the rhythm of the
by the Venice band, playing
"Day in Venice," by Nevil.
The melody concerned the
Venice, but the thought of
scholarly dreamer, the late
ard of the band. The artistic

Naomi G. Sweeney, whistler

Whistler at Noon

leadership of Ferullo, a graduate of
St. Pietro au Majella Conserva
tory of Music, Naples, Italy, in
fluenced and controlled the instru
mental ensemble. "Without doubt
the most impressive number ren
dered was the "Star Spangled
Banner." In this number the
percussion and brass effects vividly
portray "The bomb bursting in
air" without loss of musical
smoothness and appeal.
March, "Imitation," by Ferullo
was a splendid offering. He
has composed several standard
marches, waltzes and intermezzo.
"Pleasure," a love song, was an
other original number of worth.
"Simplicity," by Massenet, was
given a lovely, softened interpreta
tion of the serenade.
The efforts of Robert W. Burns,
manager of the band, and Ed Ger
aty, Venice Trustee, in bringing the
organization to KHJ are acknowl
edged with appreciation. Mr.
Burns is a highly rated per
cussionist and tympant player for
eighteen years a member of the
Los Angeles Symphony Orchestra,
and an army band leader during
two wars. Mr. Canelli, clarinetist,
was the soloist of the concert. E.
harriott, baritone player, pre
sented "Romance" from "La Travi
ata."

BOOSTER GIVES TALK

Frank Willard, president of the
Venice Chamber of Commerce, was
a guest in the studio. He gave
a brief talk on the city of Venice,
its aims and progress.
Featured additional to the band
was Gladys Grace Hill, soprano,
who came by request to give a pro
gram of old, favorite songs. This
sifted singer has been heard in a
number of radio recitals. Her voice
is loved by thousands of listeners
for its purity of tone and its
fine sympathy of treatment.
She was accompanied by Carrie
Preston Rittmeister, Miss Hill has
studied for three years with the
Epprote. She leaves soon for New
York to coach with Frank La
Forge, later sailing for Europe, to
remain one of the numbers given
were in response to requests by listen
ers-in. She sang to the hearts of
her hearers as well as to their
ears. "Comin' Thru the Rye," "An
nie Laurie," and "Last Rose of
Summer"—of such world-wide
caliber were her offerings.
She also favored with selections
by Lehar, Cadman and
Nevil.

TENOR'S SONGS PLEASE

Another singer who has won
the deep admiration of Radioland
was Otto Ploetz, tenor. Excellent
from the first, he yet seems to
improve at each appearance be
fore the microphone. His de
livery is brilliant and abundant in
feeling. Myra Bell Vickers was
at the Knabe in several pleasing
renditions by Mr. Ploetz, including
"Long, Long Ago," and "Then
You'll Remember Me." The accom
panist is a prominent teacher of
voice in Los Angeles.
A popular expression heard on
the streets of late is "This is
earthquake weather." Dr. Mars
Baumgardt, curator of the Clark
Observatory and well known in
scientific and astronomical work,
told Radioland the causes and ef
fects of earthquakes.
S. R. (Sunrise) Donaldson,
trombonist of note, a pupil of
Dr. E. R. Hiner, displayed his
usual fine ability in a series of
solos on the malinese program.
His selections included "I Love
You Truly," "The Sunshine of
Your Smile," and "The Sweetest
Story Ever Told."
Constance Raymond, soprano,
was the singer on this program.
She was heard Tuesday night
in the Don Milligan recital. Don
Milligan, composer-pianist, ac
companied her in songs of his
own writing and others by li
low-composers. Her voice and
execution were attractive.

The noon program was given
exclusively by Harold Hart, piano
accompanist, a talented entertain
er who knows his instrument
from the first key to the last.
His offerings were varied from
"The Rosary" to "Way Down
Fonder in New Orleans."
Randolph Hill, cellist, 11 years
of age, was an evening-hour per
former. His mother, Mrs. Ran
dolph Hill, Jr., played his ac
companiment.
Maud Myers, reader, gave the
bedtime story, entitled "Harriet
Anne."
Mary Kathryn Link, pianist, 8
years of age, a pupil of Marguerite
Hauber, delighted the radio
youngsters with "Minuet in G,"
by Bach, and "Through the
Woods," by Smith.

5:30 to 7 p.m., musical and vocal pro
gram.

There is nothing better

to relieve that miserable little burn,
cut or scratch—that bruise, insect
sting, or any of the many other minor
hurts that occur daily. Apply freely
but gently to the affected surface so as
not to disturb the injured skin, then
bandage lightly.

This cool, gentle ointment will not smart or
sting even when applied to the most irritated
skin. It usually stops the burning, throbbing
sensation at once and relieves the inflammation
in an amazingly short time.

Resinol Soap is not only a valuable aid to

What Is
Neuritis?

Neuritis is an inflammation of the
nerves that produces sharp, darting
pain very similar to that of rheu
matism. In fact, the disease is often mis
taken for rheumatism and treated as
such, with the result that the sufferer
gets no lasting benefit.
Neuritis is usually brought on by
cold, injuries, bruises, nervous ex
haustion, malarial poisoning or infec
tious diseases. The pain may be con
fined to one spot or it may move from
place to place. Sometimes it is ac
companied by soreness in the muscles,
numbness in the hands or feet, lame
back, stiff joints, eye strain or severe
headaches.
The only way to obtain permanent
lasting relief is to heal the affected
nerves—get rid of the inflammation.
Epsa Neuritis Tablets are compounded
for that very purpose. Harmless,
pleasant and effective. A trial pack
age will convince you. Price \$1 at
Standard Homeopathic Co., 216 E.
Broadway, and all other druggists,
Boerick & Runyon Co., manufacturer,
San Francisco.—(Advertisement.)

HEAD CHANGEDRear-Admiral Robertson is
New CommanderTransfer Marked by Lack
of CeremonyFormer Chief Assigned to
Hampton Roads

[EXCLUSIVE DISPATCH.]

SAN DIEGO, Aug. 1.—Marked
by a lack of ceremony usually
associated with events of the
kind command of the Eleventh
Naval District, of which San Diego
is headquarters, was transferred
this morning from Rear-Admiral
Robertson to Rear-Admiral
Ashley H. Robertson.Ranking officers of the Navy,
Marine Corps and Army were
present when Admiral Welles, ad-
dressing his successor said: "I
turn over to you, Admiral Robert-
son, the finest shore duty and the
most staff of officers with which
I have ever come in contact."Admiral Welles then read his or-
ders from the Navy Department
detaching him from command
here and assigning him to the
command of the Fifth Naval Dis-
trict at Norfolk, Va., and the na-
val operating base at Hampton
Roads.While the admiral was
reading, his flag was lowered
from the staff and the booming
of the saluting batteries at North
Island could be heard. The offi-
cers passed a moment in the cer-
emony to the admiral.Admiral Robertson then read
his orders after which he gave
a brief talk to the assembled offi-
cers.There will be no district staff
changes of which I am aware at
this time," said the speaker, "but
such as may come through
the regular order of service duty.
I have in mind no essential change
of policy in the administration of
the district."Following the ceremony, which
was concluded by the raising of
the two-starred flag of Admiral
Robertson, the new district com-
mander met each officer of the dis-
trict.Admiral Welles, with Mrs.
Welles, will leave tomorrow
for Norfolk, stopping en route at Yel-
lowstone National Park.

STREET REPORT MADE

Bakersfield Spends \$500,000 Dur-
ing Past Year

[EXCLUSIVE DISPATCH.]

BAKERSFIELD, Aug. 1.—Bakersfield
has taken her place among
cities of the first rank in
the west as a street improvement
city, through her expenditure
of \$500,000 for that purpose
during the past year, according
to a report made by the city engineer
W. D. Clark to the city manager.The outstanding features of the
year's work include the comple-
tion of two large paving projects,
sanding and oiling of forty-
seven blocks; laying of 170 new
curbs; completion of three extensive
sidewalk and curb projects. The
paving, sidewalk and curb projects
cost the city \$552,545.

WATER PROBLEM UP

Supervisors of Neighboring Counties
to Take Action Tuesday

[EXCLUSIVE DISPATCH.]

RIVERSIDE, Aug. 1.—Riverside,
San Bernardino and Orange
county boards of supervisors will
meet in Santa Ana next Tuesday
to consider the water problem
work in the San Bernardino
Mountains along the source of the
Santa Ana river. According to
Superior J. A. Packard, it is prob-
able that the annual appropriation
for each county per year will be in-
creased to some extent.

BOY FATALLY HURT

IN AUTO ACCIDENT

[EXCLUSIVE DISPATCH.]

ANAHEIM, Aug. 1.—Injuries re-
sulting in an automobile accident
about midnight Saturday, resulted
in the death last night in the An-
aheim Hospital of David Jamison,
19 years of age. The boy suffered
a double fracture of the skull
and never regained conscious-
ness after the accident. One of
three other boys was injured in
the accident. One of them,
Elmer Weaver, was so seriously
hurt, however, that he was con-
sidered out of danger. The
collision occurred when the rear
wheel of the boy's automobile
collided on a sharp curve in the
Brea Canyon road.

VISALIA APPOINTS

FIRST POLICE CHIEF

[EXCLUSIVE DISPATCH.]

VISALIA, Aug. 1.—Court Smith,
former Sheriff of Tulare county for
eight years, today announced that
as Visalia's first chief of Police,
two night officers, Earl Hayden
and M. L. Sogard, took office at
the same time. A day man will
be named shortly.

PLANS LIFE-SAVING CLUB

[EXCLUSIVE DISPATCH.]

OXNARD, Aug. 1.—Plans are
being made to form an amateur
swimming and lifesaving club for
special service at Huntington Beach,
four miles from Oxnard. The pri-
mary idea is to form a club which
will have certain of its members
available for duty at the beach for
special occasions such as Labor
day or Fourth of July, when thou-
sands of persons will be gathered
from all parts of the county to cel-
brate.

GIRL SETTING GOLFING RECORD

Expert With Few Months' Practice

[EXCLUSIVE DISPATCH.]

VENICE, Aug. 1.—The first
National Bank of Cutler was held
up during the noon hour today.
While Paul Rhodes, assistant cas-
her, was alone in the building a
small, dark complexioned man came
through the front door flourishing
a gun and ordered him to hold up
his hands. He then backed
Rhodes into a room.Covering him with a gun he
rifled the safe of gold and silver
of about \$1000 and then leaving
Rhodes in the vault shut the inner
door, locking it, and made his get-
away in a red Hudson speedster
up the hill to the bank, soon
reaching fifty miles an hour, while
the burglar gong at the bank sum-
moned the cashier, E. F. Coe, who
had been at lunch.The robber missed the bank's
currency, which was on the desk
in his hurry. Rhodes describes the
bandit as being five feet six, weight
134, black hair, dark skin, shaven
except for a day's growth, blue
shirt, blue overalls, slouch hat. He
had never been seen by Rhodes
before. His nationality is not
known, though he is not believed
to have been an Armenian.Cutler is an unincorporated town
seven miles east of Dinuba and
a few miles from Yreka, the Arme-
nian settlement, sprang into ex-
istence during the recent
drive. The safe deposit vault in
this bank was looted a year ago at
the same time as the Orange Cove
sensational bank robbery.The sheriff's office at Visalia
rushed men to the scene.PRISONER SAYS
Way to Freedom
From Taft Jail

[EXCLUSIVE DISPATCH.]

TAFT, Aug. 1.—Sawing apart
the metal flanges of a ventilating
transom in the roof, J. E. Atkin-
son, alias Gean Forrest, escaped
from the Taft City Jail early this
morning and is now on the loose.
Atkinson was arrested on a bat-
tery charge on Monday and yester-
day was sentenced by Judge C. H.
Stinchcomb to a fine of \$25 and
serve 130 days in Kern County Jail.

By a "Times" Staff Correspondent

VENICE, Aug. 1.—Old timers
who have been wielding
"wicked golf club" for many
seasons past are turning favorable
eyes toward Virginia Pizini, 32-
year-old golf wonder who is start-
ling Southern California with her
recent exploits.Miss Pizini came to Venice with
her parents last spring to live at
1210 Sixth avenue. Shortly after
she picked up one of her
father's golf clubs and since that
time she is rarely seen without one.
On her way to school or the beach
she would take a club. Many a
stone and rock that bore the
marks of her golfing has been
found wherever she was going.Daily Miss Pizini may be seen
on the links of the California
Country Club. Golfers just outside
the professional class are loath to
enter into contests with the young
girl or to place their years of
practice against the few months of
the girl's. She is fast making history
in California golf circles.

BEAUTY PARADE SET

Bathing Girls to Promenade 19th
Just Along Ocean Front

By a "Times" Staff Correspondent

VENICE, Aug. 1.—The annual
bathing beauties' parade, a nation-
al institution responsible for the
bringing of thousands of visitors
to the Bay District each year is
announced for the 19th inst., and
will be the first event to be staged
under the newly organized Bay
Cities Beach Association.Plans for the monster parade
development are being opened
to the office of the association with
numerous inquiries and entries al-
ready on file.Beauty of face and symmetry of
form, combined with originality in
beach attire will be deciding fac-
tors in the judges' decisions. A
half-dozen motion picture studios
will be represented, as well as
business firms and individual par-
ticipants.The parade itself will be along
the ocean front, its exact assem-
bling place and itinerary to be an-
nounced later. The judging will
be done on a huge grand stand
which is to be erected midway be-
tween Venice and Ocean Park al-
lowing thousands to see fair mor-
tals vie for honor and gold
awards.FORTY MOTHERS TAKE
SEASIDE VACATIONS

By a "Times" Staff Correspondent

PARADISE, Aug. 1.—Funds
provided by the community chest
took forty Pasadena mothers and
their children to the seaside today
where they will spend a week of
rest. Many of the needy mothers
went on their first vacation in four
years. They will receive an abso-
lute rest and their children will be
taken care of by Salvation Army
officers.

MAN HELD IN MURDER

By a "Times" Staff Correspondent

LONG BEACH, Aug. 1.—George
Sherman, 22 years of age, of 322
West First street, this city, was
arrested today and turned over to
the Los Angeles police in connection
with the murder at Los Angeles
Saturday night of A. Guzman,
a Filipino. Sherman was taken
into custody by Detective Sergeant
Cervantes at police headquarters
here after the suspect had come to
the police station to inquire for
the detective.BANDIT LOOTS

ASSESSED RECORD FINE AFTER
CONFESSING TO MOONSHINING

[EXCLUSIVE DISPATCH.]

RIVERSIDE, Aug. 1.—After pleading guilty to manufactur-
ing the cheer that flows from containers, James Pruitt of Wildo-
mar drew a record fine in Department Two of the Superior Court
today, when Judge Ellis assessed him \$1000.
J. C. Stein, arrested with Pruitt Friday night on the same
charge, was bound over to trial in the Superior Court following
his appearance before Justice Hibbard.Pruitt and Stein are said to be the original "honey brandy"
manufacturers of Riverside county and had, it is said, built up
an enormous trade at their Wildomar headquarters. When ar-
rested late Friday night by Sheriff Ryan and his deputies the
two men are said to have been in charge of a 100-gallon still.BUTTER AND MILK WERE
IN SCHEMESL. R. Crocker Arraigned
at Pasadena on Charges of
Issuing Bad Checks

By a "Times" Staff Correspondent

PASADENA, Aug. 1.—L. R. Robert
Crocker, asserted defrauder whose
operations are said to rival the
famous Ponzi, was arraigned to-
day before Justice Morton on two
charges of issuing checks without
sufficient funds. Crocker's arrest,
which occurred in Long Beach re-
cently, ended a career of many as-
serted get-rich-quick deals involv-
ing \$250,000.Crocker is an ex-soldier and R. L. Thompson,
two local business men, produced
checks for amounts exceeding \$100
which they believed to be given
them by Crocker when the latter
was in business in Pasadena sev-
eral months ago.It was brought out that Crocker
started a butter, egg and milk con-
cern in the Crown City. After
the bank established credit with
the local merchants, they passed
numerous checks, and took part in
other deals, it is said. The firm,
it is said, went broke and the pro-
prietors disappeared. This was but
one of the many schemes worked
by the defendant, the police de-
clared.Crocker's preliminary hearing
was set the 9th inst. at 10 a. m. Bail
in each case was set at \$2500.CITY MANAGER BOTHER
Pasadena Official Improves Follow-
ing Poison Attack

By a "Times" Staff Correspondent

PASADENA, Aug. 1.—City Man-
ager C. W. Koller, who was strick-
en with what is believed to be
poisoning poisoning early Tuesday
morning, is reported to be slightly
improved today. He is, however,
still in the hospital, and his phys-
ician and nurses at the Pasadena
Hospital.The poisoning, which occurred in a sudden
poison attack remains a mystery.
It will be necessary for a lapse of
another thirty-eight hours, his
physician stated, before it can be
definitely determined the true
cause of the ailment. Because of
working in the city hall, the
poisoning attack, it was at first
believed that this was the cause
of the poisoning attack. How-
ever, this theory is discarded by
the family.

ERROR IS CORRECTED

Riverside Glad to Have Wrong
Branch Appropriation

[EXCLUSIVE DISPATCH.]

RIVERSIDE, Aug. 1.—The
finance committee of the South-
ern California Fair Association
this morning heard at a meeting
that the Riverside branch of the
association had been appropriating
\$1000 for the Riverside branch of
the association, which was not
corrected until this morning.The Riverside branch of the

People and Their Troubles

Questions
Answered

(Any reader can get the answer to any question by writing to the Information Bureau, 1000 Broadway, New York City. The bureau will send the answer to the reader's home. It does not attempt to settle domestic disputes. It does not attempt to settle legal questions. It does not attempt to settle business questions. It does not attempt to settle political questions. It does not attempt to settle religious questions. It does not attempt to settle any other questions. It only attempts to answer questions. Give full name and address and return stamp for return postage. All replies are sent direct to the reader.)

Question: How much does a quart of ice cream weigh? J. P.
Answer: If frozen quite firmly and packed hard, a quart of ice cream will weigh about a pound and a quarter.

Q: It is true that every car wheel or locomotive wheel while in motion has a hammer knock, produced when one point of the wheel hits the rail? D. L. A.
A: This is true of locomotives but not of automobiles. The locomotive wheel has steel wheels between the spokes placed so as to counterbalance the horizontal piston thrust. This unbalances the wheel vertically so that when it turns at high speed it is lifted and "hammered" back on the rail.

Q: It is said that Robert E. Lee was second in his class at West Point. Who led the class that year? L. E. H.
A: Charles Mason of New York was at the head of the class in 1829, in which Robert E. Lee was second.

Q: What city has issued the greatest number of building permits in the last six months? M. M.
A: The greatest number has been issued by New York City, followed by Chicago and Los Angeles.

Q: What is the highest license fee in the Dominion of Canada? K. M.
A: These fees have been increased by the government to discourage the growing influx of foreign trappers to the Northwest Territories. Instead of the former \$2 fee bona-fide residents of the Northwest Territories will pay \$5; nonresident British subjects \$10, compared with \$75 under the old regulations.

Q: Are all labor leaders opposed to prohibition? M. M.
A: From their public expressions there seems to be a difference of opinion concerning prohibition among labor leaders just as there is among other groups of people, and it could not fairly be said that all labor leaders are for or against the Eighteenth Amendment and the Volstead Act.

Q: Is the negro population of this country increasing as rapidly as it did twenty or thirty years ago? C. C. H.
A: According to the last census the negro population from 1910 to 1920 was 6.5 per cent, the lowest thus far recorded. In consequence the proportion formed by the negro in the total population declined from 10.7 per cent in 1910 to 9.9 per cent in 1920.

Q: From their public expressions there seems to be a difference of opinion concerning prohibition among labor leaders just as there is among other groups of people, and it could not fairly be said that all labor leaders are for or against the Eighteenth Amendment and the Volstead Act.

Q: Is the negro population of this country increasing as rapidly as it did twenty or thirty years ago? C. C. H.
A: According to the last census the negro population from 1910 to 1920 was 6.5 per cent, the lowest thus far recorded. In consequence the proportion formed by the negro in the total population declined from 10.7 per cent in 1910 to 9.9 per cent in 1920.

Q: From their public expressions there seems to be a difference of opinion concerning prohibition among labor leaders just as there is among other groups of people, and it could not fairly be said that all labor leaders are for or against the Eighteenth Amendment and the Volstead Act.

People and Their Trouble Stories

Questions Answered

Any reader can get the answer to any question by writing to the Editor of the Times, 1212 Broadway, New York, N. Y. The Editor will give advice on legal, medical and financial matters. It does not attempt to solve domestic troubles, nor to undertake exhaustive research on any subject. Write your questions plain and brief. Give full name and address and leave space for return postage. All replies are sent direct to the inquirer.

Question: How much does a quart of ice cream weigh? J. P.
Answer: If frozen quite firmly and packed hard, a quart of ice cream will weigh about a pound and a quarter.
Q: It is true that every car wheel or locomotive wheel while in motion has hammer knock, produced when one point of the wheel hits the rail? D. L. A.
A: This is true of locomotives but not of automobiles. The locomotive wheel has steel web between the spokes, placed so as to counterbalance the horizontal piston thrust. This unbalances the wheel vertically so that when it turns at high speed it is lifted and "hammered" back on the rail.
Q: It is said that Robert E. Lee was second in his class at West Point. Who led the class that year? L. E. H.
A: Charles Mason of New York was at the head of the class of 1859, in which Robert E. Lee was second.
Q: What city has issued the greatest number of hunting licenses in the last six months? J. M. T.
A: The greatest number has been issued by New York City, followed by Chicago and Los Angeles.
Q: What is the hunting license fee in the Dominion of Canada? K. M.
A: These fees have been increased by the government to discourage the growing influx of foreign trappers to the Northwest Territories. Instead of the former \$2 fee, bona-fide residents of the Northwest Territories will pay \$5; nonresident British subjects \$10, compared with \$75 under the old regulations, and other nonresidents will be called upon to pay \$300—an increase of 100 per cent.
Q: How many government employees are subject to the provisions of the Federal Retirement Act? V. H.
A: A survey has not yet been made, but it is estimated that this act will affect between 400,000 and 450,000 employees.
Q: How much money has been lost through the bucket shops, about which there has been so much in the papers? J. J. P.
A: There is no way of securing accurate figures showing the losses of patrons of bucket shops, but competent authorities have estimated that since the war the cost of bucket shops and other stock-swindling operations has aggregated the enormous sum of at least \$1,000,000.
Q: Is the negro population of this country increasing as rapidly as it did twenty or thirty years ago? C. L.
A: According to the last census the ten-year increase of the negro population from 1910 to 1920 was 6.5 per cent, the lowest thus far recorded. In consequence the proportion formed by negroes in the total population declined from 10.7 per cent in 1910 to 9.9 per cent in 1920.
Q: Are all labor leaders opposed to prohibition? M. McM.
A: From their public expressions there seems to be difference of opinion concerning prohibition among labor leaders just as there are among other groups of people, and it would not fairly be said that all labor leaders are for or against the Eighteenth Amendment and the Volstead Act.

LETTERS TO THE TIMES

The Unspeakable Again
LOS ANGELES, July 31.—(To the Editor of the Times:) There will always be a Near East problem, there will continue to be trouble in the Balkan states, there will be no end to a religious war to the death, until the Christian world unites in a program to deal with the Turk on his own terms and use the only argument he understands, and that is force, to drive him and all he stands for out of Europe.
The recently enacted treaty of Lausanne is nothing but a fine example of the trickiness of the dishonest oriental. It is a disgrace to the nations of white men who permitted it, and an acknowledgment that the "Sick Man of Europe" is still a power to be reckoned with instead of the negative equation he has been supposed to be.
Under terms of the treaty Greece and other Balkan states can look for no comfort, and because of the agreement the murder of Christian women and children will continue. There is no use attempting to deal with and get justice from a nation whose people believe that the greatest religious service they can render is the killing of their Christian neighbors. Death is the least of the outrages these unchristian orientals have visited upon the heads of the followers of the Christ, and their brutal treatment of Christian women will end only when the Turk is gone from Europe.
It is not a question in which the Balkan states alone are concerned. It is one that should seriously appeal to everyone who professes the Christian faith. The Turk kills and despoils because the objects of his attacks are Christians. It must follow that all Christians should unite in the common cause of mutual protection. The influence of the United States is the most powerful in all the world today and it should become our most serious task to aid in the settlement of the fate of Turkey without fear or delay.
There is not a greater thing that

which has failed to preserve world peace; more we need to see a league of churches backing up the League of Nations, and a peace program emanating from this alliance which will have the force of law in Christian lands?
LEON A. SMITH.

The Dangerous North
LOS ANGELES, July 30.—(To the Editor of the Times:) May I suggest that the sudden illness of President Harding and the cancellation of his California trip be taken as a warning by persons of importance who are planning a trip to the far West.

It is certainly the safe and sane thing to do to plan to visit the Southland first. Here is the land the visitor is most anxious to see and here is the place where the traveler may come and go with no fear of combating unpleasant weather conditions. It seems foolish indeed that a party should be plighted through the cold and rains of the North, where many persons younger and stronger than the President have given away before the onset of the climate, rather than to approach the West by the Southern route with every assurance that it is possible to give them that trip will be a success and will be continued to its entirety.

The plan, as was arranged, and which has been so unfortunately for one element of good fortune. The break came at a place from which transportation to a climate proper for the Executive's full recovery is easy of arrangement and accomplishment.
Southern California is waiting to receive Mr. Harding as soon as he is able to travel and guarantee him to him returned health and vigor. The ocean breezes and bright sunshine of the land where life's worth-while.

S. F. FOGUE.

Fine, If You Like It
LOS ANGELES, July 30.—(To the Editor of the Times:) John Hector wrote the quietest of the "movie extra" situation. I too, worked as an extra on that climatic day of the awful accident, occurred, but at an earlier date. It is true that there are \$7.50 and \$5 extras doing exactly the same work as the \$1 people. I work the lot at about 7 p.m., worked till daylight, was sore in all my bones for days from being yanked around by a steenth assistant director. But O John, you should be fair to the extra. You say they get \$5, and good American people \$2. Well, isn't it possible for a negro to be a good American? Many of them are so considered. Those negroes did some special scenes dancing and playing, in other words, capitalizing a talent, labored and worked as hard as the rest of us extras do not possess. Why shouldn't they get more? It is time the law makers get busy and compelled a raise in extra rates. I was a dollar minus 30 cents commission to assist in the care of a car and from the job, minus carfare to go and collect wages from agents (and you can't get extra work anywhere else) leaves the munificent sum of \$2.50, for working all night in dust and grime, yanked about by a steenth assistant with muscles like Jack Johnston. And coffee at last when I was about ready to drop, but only for the men. The women were not supposed to need anything so strong and could only have milk. Yet, see, it is wonderful work. I am crazy about it, and some of the leading "stars" I have worked with are lovely and democratic and talk to the extras.

GLADYS LAMB.

Great Day For Russia

LOS ANGELES, July 30.—(To the Editor of the Times:) It will be a grand day for Russia when Mr. Kosloff turns off the new film project he has announced in the pages.

He is going to straighten out the great difference between the creeds. He is going to "enlighten the public" on the great Russian question and at the same time the proceeds will go far to put soviet Russia on her feet.
I judge he will put all the now leading Russia as heroes and the Russian plan a grand attempt. We will watch the film. Mr. Kosloff, and if we find that the film is too much Russian Red propaganda, we will see that our children will not be permitted to lose their American ideals helping you to pay off Russian debts.

It certainly is a nice way to teach Bolshevism to our rising generation.

The Russian government now in

the saddle in Russia is the biggest boast that was ever inaugurated. Infidelic and strictly Red, it is certainly against all form of religion and law, too.

Let our Board of Education be on guard against films that are pretending to educate but in reality are to encourage revolution, Socialism and Communism.
CALVIN E. HOOPER.

Who Knows Its Worth?
LOS ANGELES, July 30.—(To the Editor of the Times:) You say editorially, regarding Explorer Sidanone's wanting Great Britain to take Wrangell Island, outpost of the Aleutians, off Alaska's coast, that this country acquired possession through visitation in 1881, but that it is virtually uninhabitable and hardly worth a wrangle.

Maybe so; but our wise men of the East declared Alaska an expensive buy at about \$7,000,000; said all west of the Rockies was unsuitable wilderness and that what now is Oregon was fit only for wild beasts and wild men. Is our wisdom of the East displayed about our Far West and Alaska not so very long ago?
L. J. BERGER.

Goodness By Force

HERMOSA BEACH, July 28.—(To the Editor of the Times:) Sometime ago I stepped into one of the numerous missions that grope certain districts of your fair city, and listened for a few minutes to the harangue of a large, bull-necked, red-faced man who was holding forth on the treatment of children. He quoted the biblical adage, "Spare the rod and spoil the child," and told his polyglot audience that most children are not whipped enough. He said that he had a boy of his own—a child of twelve, I believe—and he described in detail the frequent and severe beatings that he administered to the boy, and worked up into a righteous rage as he boasted of the exquisite tortures inflicted; then, gesticulating like an ape and frothing at the mouth like an unclean animal, he prophesied the utter damnation of every child that was "whipped hard and often."

The picture of this gentle evangelist's unfortunate child haunted me, and led me to think over the subject of the treatment of children in a general, and I find myself wondering how many fathers and mothers give this all-important matter the deep study that it is their sacred duty to give to it. How many parents have read the works of the modern physiologists who have devoted their lives to the study of the child mind? How many fathers give as much thought to the minds of their children as they do to the machinery of their automobiles? Of course, no one will condone the teaching of a brute who advocates the whipping of children "hard and often," for we have all ceased to believe in inflicting on children a torture that is considered too barbaric to be used on the convicted criminal, but on the other hand, few comprehend the delicate mechanism of the child's mind, and much harm is wrought by intelligent and well-meaning parents in repressing instead of encouraging the development of individuality.

MAXWELL L. DAVIS

Tree-Planting Plans Are Not to be Changed

Although President Harding will not be in Los Angeles to officiate today at the tree-planting ceremonies of the Hollywood Library, the Hollywood Chapter of the Daughters of the American Revolution are to go on with their original plans.

However, instead of 3:45 o'clock, as previously announced, the ceremony will start at 2:15 p.m. in order that those taking part may also attend the Knights Templar celebration.
Many State officers of the D.A.R. will be present, including Mrs. Lyman B. Stookey, State Representative. Mrs. H. H. Wright and Mrs. Lewisell Banks.

COOLIDGE BY HIS F

PLYMOUTH (Vt.)
of President Harding
and time. The new Pres
who is a notary public.

Bay State

Calvin Coolidge, Vice-President

automatically succeeds to the Presidency

President Harding, is a native of

of age. He has been long in the

Geography, not infrequently a

major consideration in the nomination

of a candidate for "second

place on the ticket," played less

part than history in the nomination

of Calvin Coolidge of Massachusetts

for Vice-President of the

United States by the Republican

national convention in 1920 as his

stepping stone to election as the

thirtieth President.

From actual observation at the

time and scene of that selection it

may be stated beyond fear of con-

tradition that there was less talk

of giving the necessary geographical

balance to the ticket when his

name went before the convention

than there was of the achieve-
